Compilazione degli ordini con "T GEO – METRON4 – MULTISTANZA"

Compilation of orders with "T GEO – METRON4 – MULTI-ROOM"

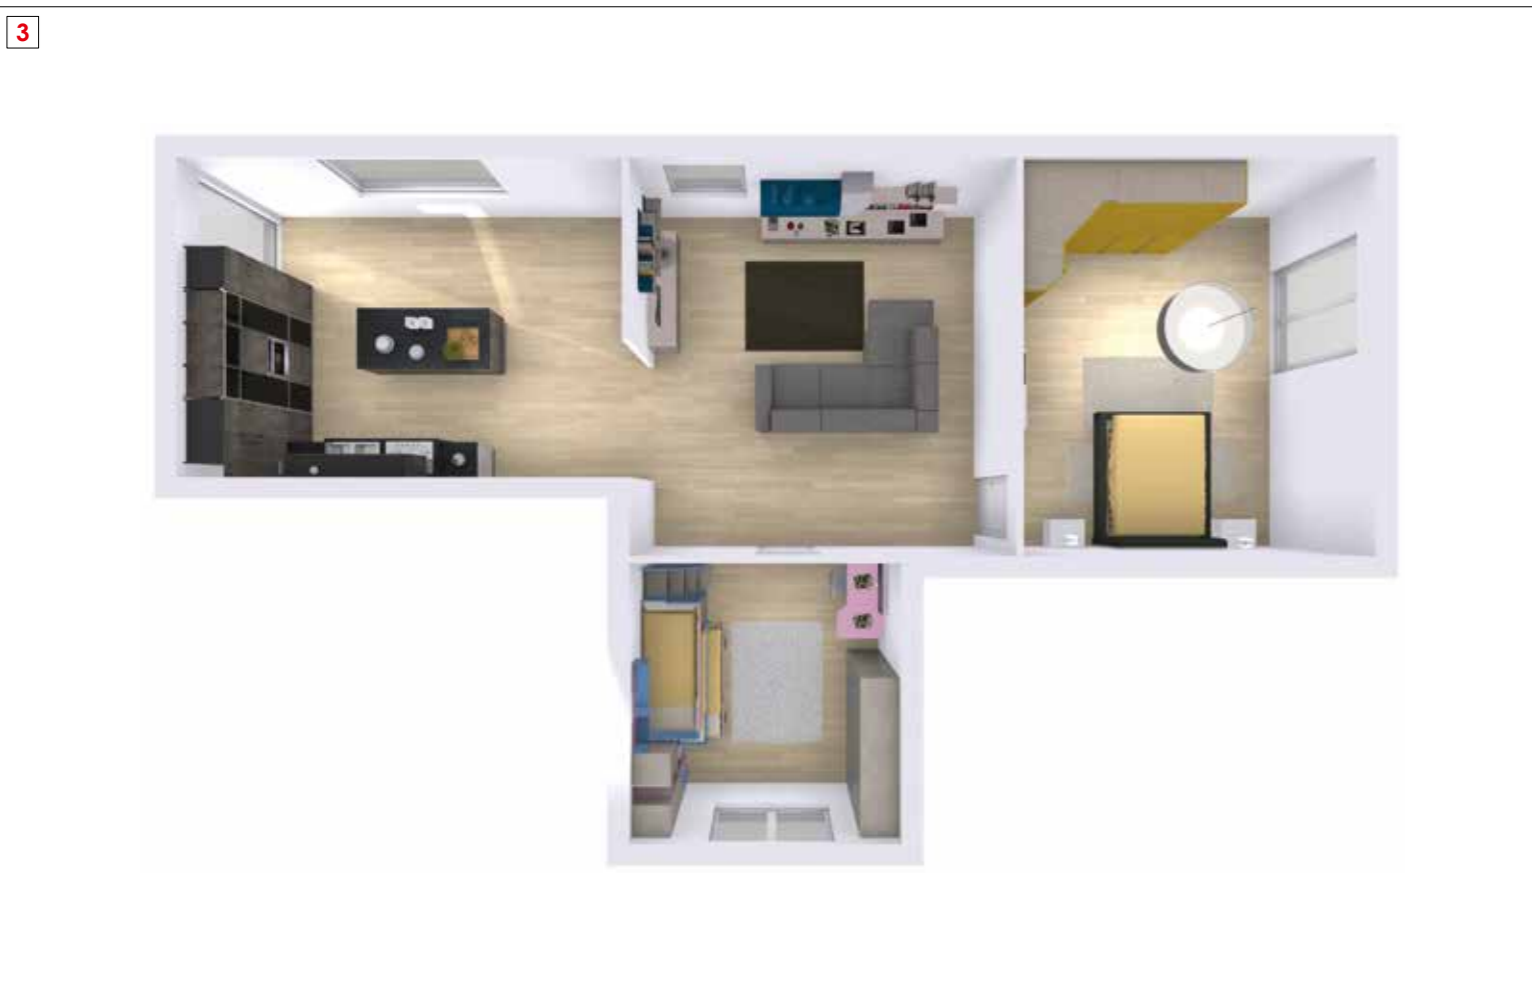

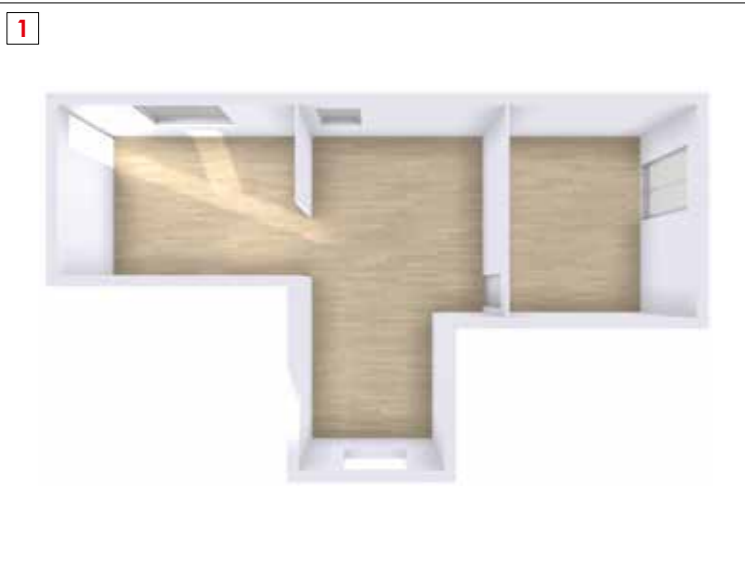

Utilizzare il Colombini Software System permette di:

- Generare preventivi e disegni chiari e corretti.
- Disegnare un'ambientazione reale della composizione.
- Progettare rapidamente un appartamento con tutte le collezioni del Gruppo Colombini.
- Creare progetti che sanno emozionare.
- Ridurre i tempi per lo sviluppo e invio ordini alla Colombini S.p.A.
- Utilizzare lo stesso programma impiegato in Colombini S.p.A.
- Spedire gli ordini tramite Internet garantendone la tracciabilità.
- Disporre dei listini elettronici aggiornati in tempo reale.
- Organizzare in modo flessibile e personalizzato i propri progetti.

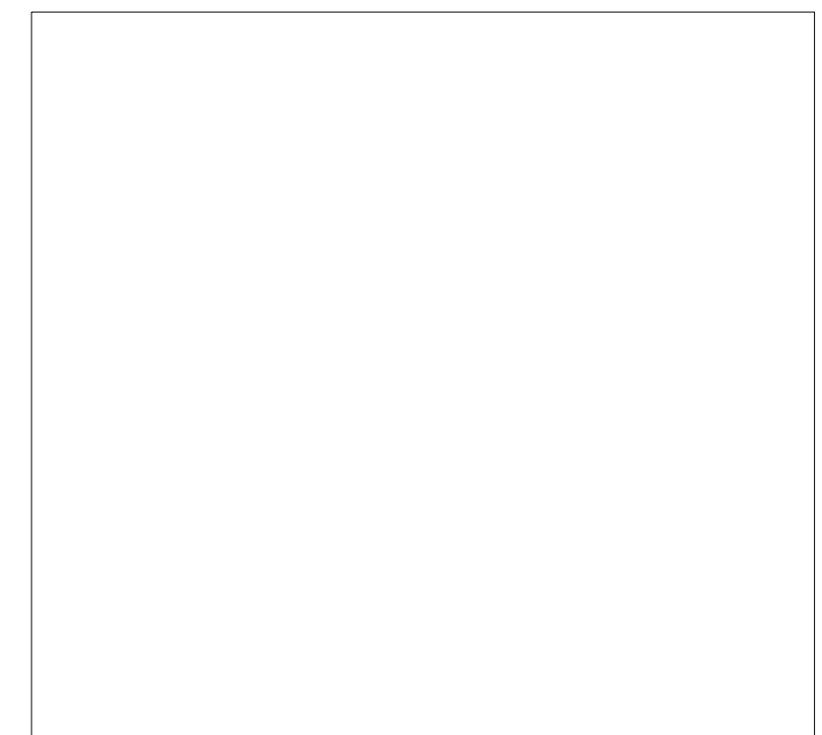

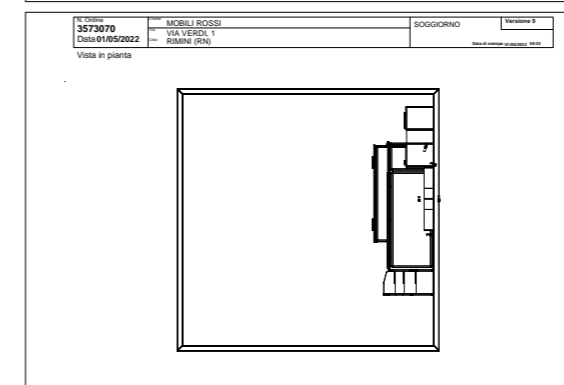

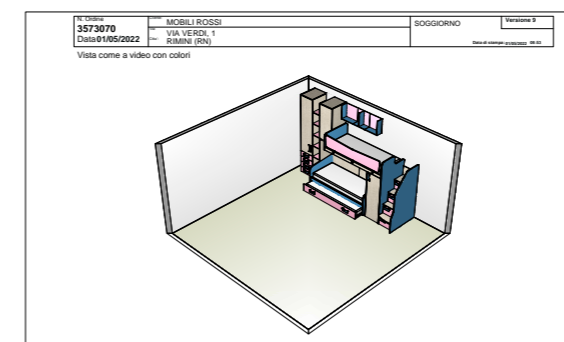

With the Colombini Software System you can:

- Generate clear, accurate cost estimates and drawings.
- Draw a real rendering of the composition.
- Quickly design an apartment with all the Colombini Group collections.
- Create exciting designs.
- Cut times for developing orders and dispatching them to Colombini S.p.A.
- Use the same programme as Colombini S.p.A. itself.
- Send orders by Internet, with traceability ensured.
- Access electronic price-lists updated in real time.
- Organise your projects in a flexible way, customised to your needs.

Le immagini e i prezzi hanno valore puramente illustrativo.

Idrorepellente antimacchia. Grazie a tale trattamento, i liquidi o le sostanze che accidentalmente possono cadere sul rivestimento, non penetrano nel tessuto e non vengono assorbiti dalla gomma del cuscino. Nel caso si versi accidentalmente una soluzione acquosa (acqua, vino, caffè, bibite, ecc.) è sufficiente asciugare con un panno asciutto o carta assorbente. Nel caso in cui il liquido sia rimasto a lungo sul tessuto o abbia subito una eccessiva pressione, dopo aver asciugato, sarà necessario strofinare leggermente con una spugna umida non abrasiva. Nei casi più gravi si potrà utilizzare sapone neutro, successivamente da risciacquare.

Water-repellent stain. Thanks to this treatment, liquids or substances that may accidentally fall on the coating, will not penetrate into the fabric and will not be absorbed by the rubber in the cushion. In case you accidentally spill a watery solution (water, wine, coffee, soft drinks, etc.) it is enough to dry it with a dry cloth or paper towels. In the case the substance remains on the fabric for a prolonged amount of time or has suffered excessive pressure, after having been dried, you will need to rub gently with a damp non-abrasive sponge. In severe cases, you can use mild soap, subsequently rinse afterwards.

Rivestimenti selezionati dalla collezione SOFUP.
Selected coatings from the collection SOFUP.

Ignifugo CLASSE 1 (UNO)
Fireproof 1 CLASS (ONE)

Consegna 4 settimane circa dal ricevimento dell'ordine.
Delivery approximately 4 weeks from order receipt.

Il rivestimento, al momento del disimballaggio o in seguito ad un utilizzo anomalo, potrebbe presentare delle vistose macchie o righe dovute allo schiacciamento delle fibre. Utilizzare una spazzola con setole morbide per riportarlo alla naturalezza originaria.
At the time of unpacking or following incorrect use, the covering may display visible blotches or lines caused by crushed fibres. Use a brush with soft bristles to return the cover to its original appearance.

Caratteristiche

Characteristics

Importante:

- Fianco centrale, cappello, fondo, ripiani e schiena in finitura **Rovere white (RW3Q)**.
- Sono strutture posizionabili solo a terra.
- Sono dotate di piedini regolabili.
- I fianchi sono predisposti per il montaggio della ferramenta di ante, cassetti, ripiani.

Dotazione interna:

- Gli elementi a giorno sono dotati di ripiani ogni 32 cm.
- Negli armadi in corrispondenza di ante H 224 e H 256 sono presenti 1 ripiano interno e 2 tubi appendi abiti.
- Negli armadi con ante H 96, 128, 160 e 192 è presente un tubo appendiabiti.

Utilizzata per:

ARMADI
L 30 - 45 - 60 - 90 (fianco iniziale compreso)
P 56,3
H 225,6 - 257,6 (piedini H 0,7 compresi)

Important:

- Middle panel, top, bottom panel, shelves and back panel in **Rovere white (RW3Q)** finish.
- These structures can only be placed on the ground.
- They are fitted with adjustable feet.
- The side panels are prefitted to take the hardware of doors, drawers, shelves.

Element equipment

- Open elements are fitted with shelves every 32 cm.
- In the wardrobes in correspondence of doors Ht 224 and Ht 256 there are 1 inner shelf and 2 clothes hanging bars.
- In the wardrobes in correspondence of doors Ht 96, 128, 160, and 192 there is 1 clothes hanging bar.

Used for:

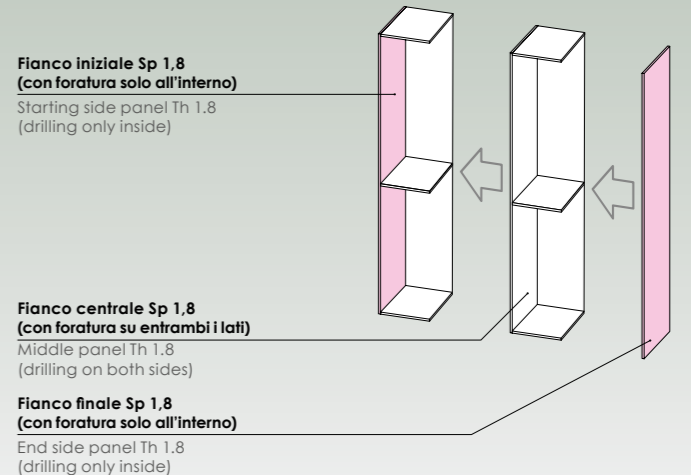

WARDROBES
W 30 - 45 - 60 - 90 (starting side panel included)
Dpt 56.3
Ht 225.6 - 257.6 (Ht 0.7 feet included)

Esempio composizione

Example of composition

- Ogni composizione deve essere completata dal fianco finale.
- In composizioni con altezze diverse, ogni elemento dovrà essere completato dal fianco finale.

- The compositions must be completed with an end side panel.
- In compositions with different heights, each element must be completed by the end side panel.

ARMADI e COMPONENTI
WARDROBES and MODULAR UNITS

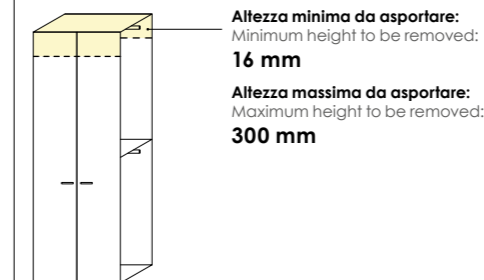

Esempio: per ridurre in larghezza un armadio ad 1 ante si tagliano 5 componenti (fondo, cappello, ripiano, schiena e 1 ante); pertanto il costo di questa lavorazione è di:
Example: to reduce the width of a 1-door wardrobe, 5 components have to be cut (bottom panel, top, shelf, back panel and 1 door); therefore, the cost of this process is:

LIBRERIA INFINITY INFINITY BOOKSHELVES

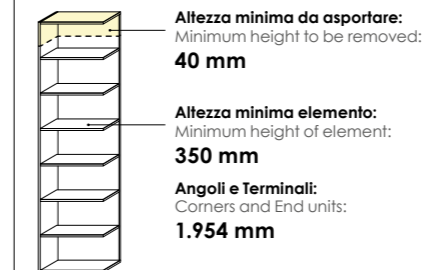

RIDUZIONE IN ALTEZZA REDUCED HEIGHT

ARMADI
WARDROBES

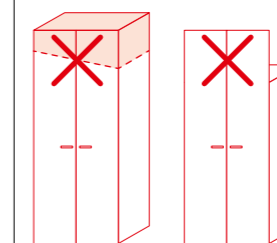

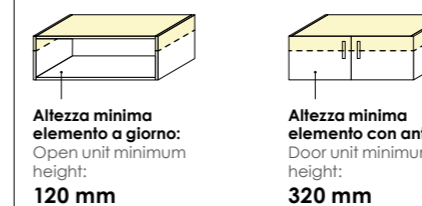

Esempio: per ridurre in altezza un armadio a 2 ante si tagliano 4 componenti (2 ante, schiena e fianco); pertanto il costo di questa lavorazione è di:
Example: to reduce the height of a 2-doors wardrobe, 4 components have to be cut (2 doors, back panel and side panel); therefore, the cost of this process is:

LIBRERIA INFINITY INFINITY BOOKSHELVES

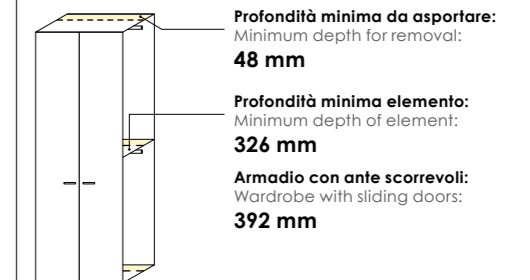

COMPONIBILI MODULAR UNITS

- Si taglia sempre sopra
- NO taglio obliquo
- NO altezza cassa diversa dalle facciate
- It is always cut above
- NO slanted cut
- NO carcasse height different from the fronts

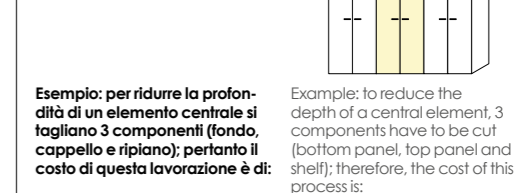

RIDUZIONE IN PROFONDITÀ REDUCED DEPTH

ARMADI
WARDROBES

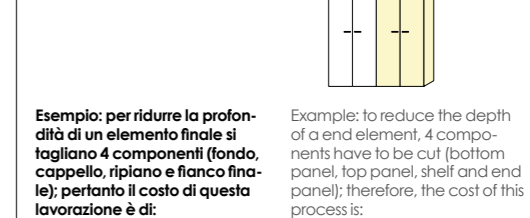

Esempio: per ridurre in profondità un armadio si tagliano 4 componenti (fondo, cappello, ripiano e fianco); pertanto il costo di questa lavorazione è di:
Example: to reduce the depth of a wardrobe, 4 components have to be cut (bottom panel, top panel, shelf and side panel); therefore, the cost of this process is:

ELEMENTO CENTRALE CENTRAL ELEMENT

Esempio: per ridurre la profondità di un elemento centrale si tagliano 3 componenti (fondo, cappello e ripiano); pertanto il costo di questa lavorazione è di:
Example: to reduce the depth of a central element, 3 components have to be cut (bottom panel, top panel and shelf); therefore, the cost of this process is:

ELEMENTO FINALE END ELEMENT

Esempio: per ridurre la profondità di un elemento finale si tagliano 4 componenti (fondo, cappello, ripiano e fianco finale); pertanto il costo di questa lavorazione è di:
Example: to reduce the depth of an end element, 4 components have to be cut (bottom panel, top panel, shelf and end panel); therefore, the cost of this process is:

In caso di armadi ridotti in profondità si consiglia l'utilizzo di tubi appendi abiti scorrevoli.
La libreria INFINITY non si riduce in profondità.
With small depth wardrobes we recommend using sliding clothes rails.
The INFINITY bookshelf can not be reduced in depth.

TOP e MENSOLE TOP and SHELVES

Profondità minima top e mensola:
Minimum depth top and shelves: 
200 mm
Top lineare per scrittoio (perde ogni tipo di foratura)
Linear top for desk (it lose all type of holes)
150 mm
Mensole con reggimensola A SCOMPARSA
Shelves with A SCOMPARSA shelf-holders
100 mm
Top per componibili/pensili (perdono ogni tipo di foratura)
Mensole senza reggimensola
Mensole con reggimensola LAMPO e KUB
Top for modular units/hanging units (they lose all type of holes)
Shelves without shelf-holders
Shelves with LAMPO and KUB shelf-holders

⚠️ **DOPPIO FIANCO:** Gli armadi affiancati alla cabina ad angolo devono essere completi di fianco iniziale/finale.
DOUBLE SIDE PANEL: Wardrobes flanked by corner walk-in wardrobe must be complete with initial/end unit side panel.

È dotata di un Ripiano interno con appendiabiti, di un Tubo appendiabiti LUNGO e di uno CORTO.
Walk-in wardrobe is fitted with a inner shelf with Clothes hanging rail, with a LONG clothes hanging rail and with a SHORT one.

Gli armadi L 30/45/60 affiancati alla cabina ad angolo, devono avere le cerniere rivolte verso la cabina. Non è possibile posizionare un letto, un divano o altri elementi con profondità superiore a 56,3 accanto ad una cabina ad angolo.
IMPORTANTI! Consigliamo l'utilizzo della cabina ad angolo affiancata, su entrambi i lati, ad un armadio o un altro elemento che contribuisca alla sua stabilità.
IMPORTANTI! We recommend that the corner walk-in wardrobe is, on both sides, supported by a wardrobe or another element that will contribute to its stability.

W 30/45/60 wardrobes flanked by corner walk-in wardrobe must have their hinges in the direction of the walk-in wardrobe. It is not possible to place a bed, a sofa or other items more than 56.3 beside a corner walk-in wardrobe.

IMPORTANTI! We recommend that the corner walk-in wardrobe is, on both sides, supported by a wardrobe or another element that will contribute to its stability.

DOPPIO FIANCO: Gli armadi affiancati all'angolo ad angolo devono essere completi di fianco iniziale/finale.
DOUBLE SIDE PANEL: Wardrobes flanked by corner wardrobe must be complete with initial/end unit side panel.

Esempi di utilizzo

Use example

Per la totale apertura delle ante si consiglia di affiancare all'angolo elementi L 30/45/60 con cerniere rivolte verso l'angolo e/o elementi L 90 sprovvisti di cassetti.
Per il posizionamento di elementi di profondità superiore a 56,3 (es. letto, divano, etc.) accanto ad un angolo intero, rispettare le distanze minime indicate.

So as to be able to open the doors fully we recommend placing W 30/45/60 elements in the corner with the hinges facing the corner itself and/or W 90 elements without drawers.
For the positioning of elements that are of greater depth than 56,3 (bed, sofa, etc.) alongside corner wardrobe must respect the minimum distances indicated above.

Terminali - P 56,3

End units - Dpt 56.3

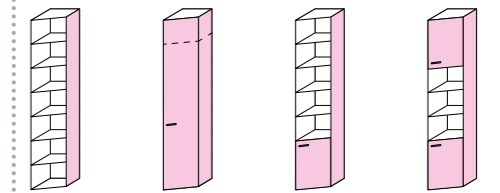

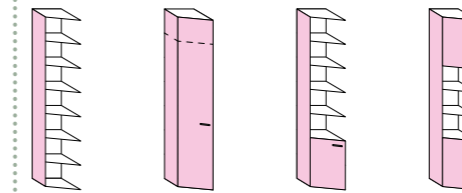

- Vanno sempre affiancati ad un armadio.
- Montano ante con cerniere 30° e basette dedicate.
- Sono compresi i ripiani interni indicati con il tratteggio.
- Non è possibile montare il tubo appendiabiti.
- Sono dotati di piedini regolabili.

- They always go side by side to a wardrobe.
- Fitted with doors with 30° opening hinges with mounting plates.
- Inner shelves included, indicated by the dotted line.
- Clothes hanging rail cannot be installed inside end units.
- They are equipped with adjustable feet.

È un sistema di assemblaggio innovativo con cui puoi costruire i tuoi arredi con la stessa semplicità con cui assembleresti un gioco di costruzioni. Il connettore permette di fissare i nostri pannelli Sp 1,8 senza doverli forare; è dotato di una vite in acciaio inossidabile che, se stretta con l'uso di una brugola, blocca i pannelli come un morsetto evitando la perforazione degli stessi e l'uso di trapano o avvitatore, rendendo il montaggio semplice e veloce. La staffa-connettore PlayWood® è un morsetto dalle forme brevettate e caratterizzato da un design moderno. Realizzato in polimero rinforzato ultra resistente combinato con elementi in acciaio Inox, presenta un'elevata capacità di carico e può essere riutilizzato infinite volte.

It is an innovative assembly system, with which you can build your own furniture with the same simplicity of a construction game. The connector allows you to fix our Th 1.8 panels without having to drill them; it is equipped with a stainless steel screw which, if tightened with the use of an Allen key, locks the panels like a clamp avoiding their drilling and the use of a drill or screwdriver, making assembly quick and easy. The bracket-connector PlayWood® is a clamp with patented shapes and characterized by a modern design. Made of ultra-resistant reinforced polymer combined with stainless steel elements, it has a high load capacity and can be reused endless times.

Connettore 90°

Grazie alla loro conformazione, che permette di unire due pannelli tra loro con un angolo di 90°, puoi usare queste staffe-connettore per realizzare scaffali, sedute, scrivanie e librerie. Se utilizzate in coppia, poi, queste staffe possono formare una giunzione a T per fissare tre pannelli.

90° connector

Thanks to their conformation, which allows to connect two panels together at an angle of 90°, you can use these connector brackets to create shelves, seats, desks and bookcases. If used in pairs, then, these brackets can form a T-joint to fix three panels.

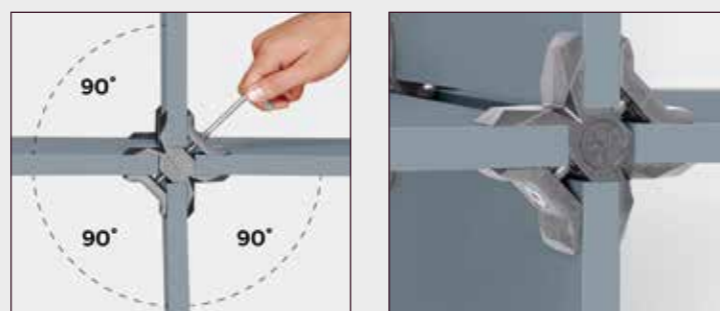

Connettore a Croce

Permette di unire contemporaneamente quattro pannelli tra loro con un angolo di 90°, creando una croce. Questo giunto a croce dispone di quattro innesti per creare velocemente e facilmente scaffalature e strutture che richiedono la combinazione di diversi pannelli. Questi connettori a croce sono utilizzati in combinazione con i connettori a 90°. Un connettore a croce assolve alla funzione di tre connettori 90° rendendo l'arredo più leggero.

Cross connector

It allows you to connect four panels together at a 90° angle, creating a cross. This cross connector has four couplings to quickly and easily create shelves and structures that require the combination of different panels. These cross connectors are used in combination with the 90° connectors. A cross connector performs the function of three 90° connectors making the furniture lighter.

DISTANZE MINIME PER IL MONTAGGIO MINIMUM DISTANCES FOR ASSEMBLING

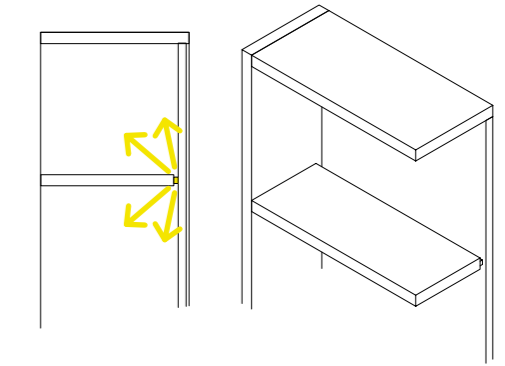

RIPIANO IN LEGNO CON LUCE LED

L'illuminazione per ripiano in legno è costituita da una strip led (60 led/mt) posizionata nella parte retro del ripiano. Lunga come tutto il ripiano, permette di illuminare riflettendosi nella schiena sia il vano superiore che inferiore. La tipologia di illuminazione è naturale. Si consiglia l'utilizzo di tale tipologia di illuminazione in presenza di schiena. Viene fornito un alimentatore (con sovrapprezzo) in grado di sostenere da 1 a 6 ripiani L 45/60 o da 1 a 4 ripiani L 90.

WOODEN SHELF WITH LED LIGHT

The wooden shelf light is a led strip (60 led/m) assembled on the back side of the shelf. The strip shares the same length with the shelf and by reflecting the light on the back panel, it enlightens the compartments above and below. The colour tone of the LED strip is natural. We recommend using this type of light system when there is a back panel. We provide a power pack (with a surcharge) able to support from 1 to 6 shelves W 45/60 or from 1 to 4 shelves W 90.

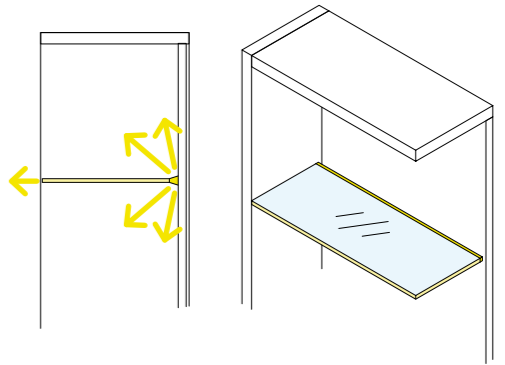

RIPIANO IN VETRO TRASPARENTE CON LUCE LED

L'illuminazione per ripiano in vetro è costituita da un profilo in PVC con strip led (60 led/mt), posizionata nella parte retro del ripiano. Lunga come tutto il ripiano, permette di illuminare riflettendosi nella schiena sia il vano superiore che inferiore, ma anche frontale. La tipologia di illuminazione è naturale. Si consiglia l'utilizzo di tale tipologia di illuminazione in presenza di schiena. Viene fornito un alimentatore (con sovrapprezzo) in grado di sostenere da 1 a 6 ripiani L 45/60 o da 1 a 4 ripiani L 90.

TRANSPARENT GLASS SHELF WITH LED LIGHT

The glass shelf light system consists in a PVC profile with led strip (60 led/m) assembled on the back side of the shelf. The strip shares the same length with the shelf, it gives a front lighting and by reflecting the light on the back panel, it enlightens the compartments above and below. The colour tone of the LED strip is natural. We recommend using this type of light system when there is a back panel. We provide a power pack (with a surcharge) able to support from 1 to 6 shelves W 45/60 or from 1 to 4 shelves W 90.

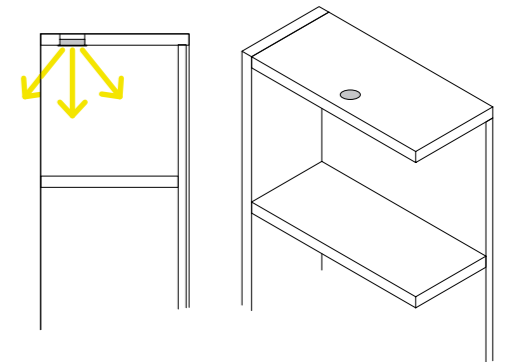

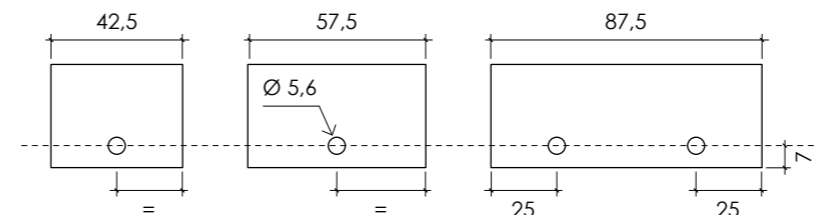

FARETTO LED

La tipologia di illuminazione è naturale. Viene fornito un alimentatore (con sovrapprezzo) in grado di sostenere da 1 a 6 faretti. Si consiglia l'utilizzo di tale tipologia di illuminazione nel cappello. I faretti vengono posizionati nel modo sotto indicato (cablaggi a vista).

LED SPOTLIGHT

The colour tone of the LED strip is natural. We provide a power pack (with a surcharge) able to support from 1 to 6 spotlights. We recommend using this type of light system only on top panel. Spotlights are assembled as showed below (wiring in sight).

INTERRUTTORE

L'accensione di tali ripiani può avvenire in 2 modi:

ON/OFF SWITCH

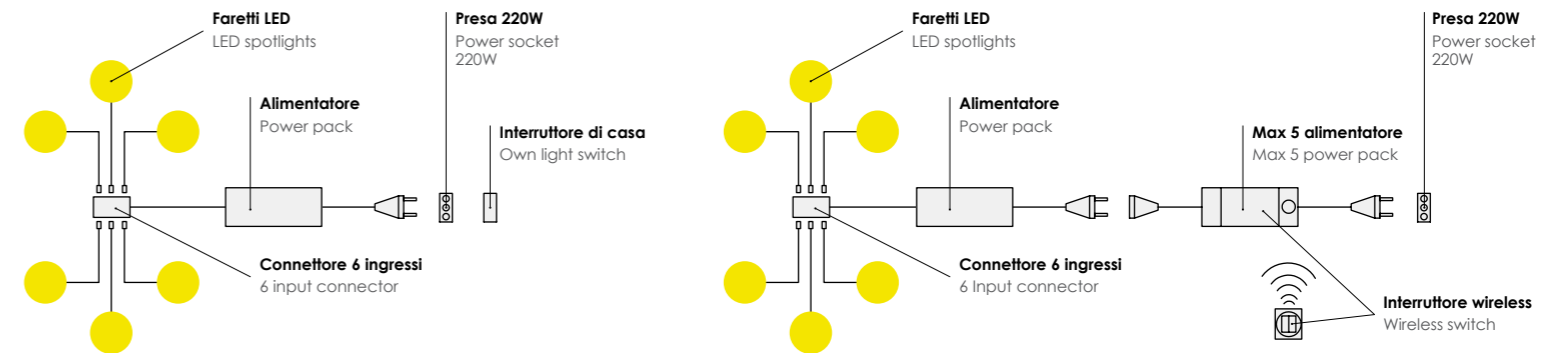

The on/off switching of the shelves can be done in 2 different ways:

- 1) Collegando l'alimentatore alla spina di casa, usando come accensione l'interruttore di casa.

By connecting the power supply unit to your home electrical system and using your own standard power switch.

- 2) Ordinando un interruttore wireless presente nel listino.

Tale interruttore permette l'accensione o spegnimento di tutti i punti luce presenti nella libreria, contemporaneamente, sino ad un massimo di 30 ripiani o faretti. By ordering our wireless on/off switch from catalogue. This switch allows you to turn on or off all the LED lights in the bookcase, up to a maximum of 30 shelves or spotlights.

Libreria INFINITY - Ante e cassetti

INFINITY bookshelf - Doors and drawers

- Sono dotate di cerniere decelerate.
- Le ante VOLO sono disponibili anche con apertura PUSH-PULL.
- Su richiesta le ante VOLO possono essere fornite senza maniglia e senza fori maniglia.

- The doors are equipped with hinges decelerate.
- The VOLO doors are also available with PUSH-PULL opening.
- Upon request, the VOLO doors can be supplied without a handle and without handle holes.

- Le ante vasistas e ribalta sono dotate di cerniere a scomparsa e braccio di tipo meccanico modello snodo.
- Le ante VOLO vasistas e ribalta sono disponibili anche con apertura PUSH-PULL.

- The vasistas/folding doors are provided with concealed hinges and joint lid stay arm.
- The VOLO vasistas/folding doors can be supplied with PUSH-PULL system.

COME DETERMINARE I PIEDI NECESSARI:
HOW TO CALCULATE NUMBER OF FEET NEEDED:

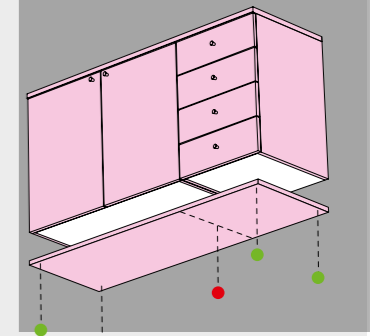

Si applicano esclusivamente sul fondo.
Esempio: Tante confezioni di 4 piedini ALFA 16, ALFA 25 e ETA da fissare sotto ogni elemento.

Be applied underneath to the bottom panel only. Example: One pack of 4 ALFA 16, ALFA 25 and ETA feet for fixing underneath each element.

Si applicano esclusivamente sotto la Base. Esempio: Una confezione di 4 piedini SIGMA da fissare alle estremità più 1 piedino GAMMA centrale da sistemare in corrispondenza del punto di unione fra le unità.

Be applied underneath to the base only. Example: One pack of 4 SIGMA feet for fixing at the ends plus one "GAMMA central" feet for placing at each joint between units are always required.
