General characteristics

## RV24JN - JENNY fabric

### Material specifications:

Composition 100% polyester  
 Weight 375 gr/m<sup>2</sup>  
 Martindale 60,000

### Washing instructions:

## RV24KN - KENYA fabric

### Material specifications:

Composition 100% polyester  
 Weight 434 gr/m<sup>2</sup>  
 Martindale > 100,000

### Washing instructions:

N.B. These indications are merely guidelines and are provided in good faith; they may not be considered binding in any circumstance.

### Water-repellent stain.

Thanks to this treatment, liquids or substances that may accidentally fall on the coating, will not penetrate into the fabric and will not be absorbed by the rubber in the cushion. In case you accidentally spill a watery solution (water, wine, coffee, soft drinks, etc.) it is enough to dry it with a dry cloth or paper towels. In the case the substance remains on the fabric for a prolonged amount of time or has suffered excessive pressure, after having been dried, you will need to rub gently with a damp non-abrasive sponge. In severe cases, you can use mild soap, subsequently rinse afterwards.

# Fabrics and faux leathers

## RV90TP - TAPE faux leather

### Material specifications:

Composition	85% polyvinyl chloride 15% polyester
Weight	530 gr/m <sup>2</sup>
Martindale	> 100.000

### Fire resistance:

This product has been successfully tested according to the following methods:  
 · EN 1021-1:2006 & EN 1021-2:2006  
 · BS 5852-1 (UK) (1979)

### Washing instructions:

### Maintenance:

clean gently with damp, soft cloth.  
 Do not use abrasive and degreasing products or chemical detergents, which may ruin irremediably the upholstery.

## ECOCHIC fabric

### Material specifications:

Composition	100% polyester
Weight	350 gr/m <sup>2</sup>
Martindale	> 100.000

### Washing instructions:

## ECOCHIC faux leather

### Material specifications:

Composition	100% polyester
Weight	190 gr/m <sup>2</sup>

### Washing instructions:

### Maintenance:

clean gently with damp, soft cloth.  
 Do not use abrasive and degreasing products or chemical detergents, which may ruin irremediably the upholstery.

N.B. These indications are merely guidelines and are provided in good faith; they may not be considered binding in any circumstance.

### Water-repellent stain.

Thanks to this treatment, liquids or substances that may accidentally fall on the coating, will not penetrate into the fabric and will not be absorbed by the rubber in the cushion. In case you accidentally spill a watery solution (water, wine, coffee, soft drinks, etc.) it is enough to dry it with a dry cloth or paper towels. In the case the substance remains on the fabric for a prolonged amount of time or has suffered excessive pressure, after having been dried, you will need to rub gently with a damp non-abrasive sponge. In severe cases, you can use mild soap, subsequently rinse afterwards.

# Contrasting seams

## Dimensions available

### INSERTO melamine-coated doors W 91.1 and 135.5

• These items' height and width cannot be altered.

## Front customisation

Wardrobe fronts can be customised (see indications in the chapter on INSERTO wardrobes with sliding doors).

## Vertical trim

In aluminium, anodised or with decorative coating, with adjustable internal tie-rods.

Colours available

<b>RW3Q</b>	<b>FL8X</b>	<b>BS5T</b>	<b>BO7H</b>
<b>RD5T</b>	<b>CM3Q</b>	<b>GZ8T</b>	<b>CP4J</b>
<b>CB6K</b>	<b>BI7A</b>	<b>DM7P</b>	<b>RB7Y</b>
<b>NN7H</b>	<b>DS9L</b>	<b>GV7A</b>	<b>GZ8A</b>

When ordering wardrobes with 2 doors, it is essential to specify whether the projecting door is R or L. The side panel next to the projecting door has depth 58 cm, while the side panel next to the non-projecting door is 54.5 cm deep.

The door opening diagram applies for all wardrobes with sliding doors. **Door opening directions cannot be reversed.**

- ✳ Finishing with textured effect
- ✳ UV glossy finishing
- ✳ Bianco UV (BU3Q) not available for W 135.5 doors.

# Custom cuts

**35,00** cost of cutting each component of the element.

Cuts are carried out only on request with explanatory drawing.

It is not possible to create two-sided elements.

For customised cuts of units that are not specified, consult the technical notes inserted in the various sections.

- Processing executable
- Processing not executable

- \*<sub>1</sub> Only wardrobes between Ht 225.6 and 257.6 can be reduced.
- \*<sub>2</sub> SUMO and ELFO beds not included.
- \*<sub>3</sub> Beds with accessories not included.
- \*<sub>4</sub> Top Th 5.5 excluded.

## Reduced Width

**Example:** To reduce the width of a two-door wardrobe, 6 components have to be cut (bottom panel, top, shelf, back panel and 2 doors); therefore, the cost of this process is:  
35,00 x 6 = 210,00.

## Reduced Height

**Example:** To reduce the height of a two-door wardrobe, 5 components have to be cut (2 doors, back panel and 2 side panels); therefore the cost of this operation is:  
35,00 x 5 = 175,00

**Cuts are always made at the top**

## Reduced Depth

With small depth wardrobes we recommend using sliding clothes rails.

**Example:** To reduce the depth of a wardrobe, 5 components have to be cut (2 side panels, bottom panel, top panel and shelf); therefore the cost for processing amounts to:  
35,00 x 5 = 175,00

# Filler strips

**Vertical**

# Wardrobes - technical information

## Components:

- 1 **Top panel Th 1.8** - With eccentric pin system
- 2 **Bottom panel Th 1.8** - With eccentric pin system
- 3 **Side panels Th 1.8** - With prefitted hardware.
- 4 **Back panel Th 0.3 or 0.8 (optional)** - Fitting into shaped connection.
- 5 **BASIC clothes hanging bar** in chromed metal or **PLUS clothes hanging bar (optional)** in aluminum.
- 6 **Movable shelf Th 2.5 Dpt 51.5** - On runner.
- 7 **Dividing movable shelf Th 2.5 Dpt 53** - With sliding support.
- 8 **Metal drawer runners**
- 9 **Strip led (optional)** - In full height milled groove.
- 10 **Adjustable middle-support feet**

## Dimensions:

**W** 30 - 45 - 60 - 90 - 120

**Dpt** 56,3

**Ht** 193,6 - 225,6 - 241,6 - 257,6 - 289,6

- These structures can only be placed on the ground.
- The side panels are flush with the top and bottom and have custom holes.
- The hardware is placed in a personalized fashion according to the position of the components.
- Tops are not finished.
- They are equipped with adjustable feet.

## IMPORTANT!

- The doors are fitted with decelerated hinges.
- The drawers and big drawer CLUB (all widths) and the drawers and big drawer W 120 are always fitted with height-adjustable soft-close "Quadro" metal slides with interior CHARM finish.
- **Internal fittings supplied consist in:** 1 clothes hanging bar in line with doors Ht 96 - 112 - 128 - 160 - 192; 2 clothes hanging bars and 1 movable shelf in line with doors Ht 224 - 240 - 256 - 288. Open units will have 1 movable shelf each 32 cm.
- **For custom cuts consult the relevant chapter.** With small depth wardrobes we recommend using sliding clothes rails.
- In mixed compositions, the handles of the WINDOW doors are not aligned (see example).
- In units W 90 with doors W 30 + W 60 the direction is determined by the position of the door W 60 on the ground.
- Upon request, the doors can be supplied without a handle and without handle holes (not on CLUB and WINDOW door).
- The Wardrobes with pairs of CLUB doors are provided with only one handle. In elements with doors W 30 + 60 the handle is placed on the W 60 door. Upon customer's request the CLUB handle can be mounted on both doors.
- In W 90 units, with transparent glass shelves, an excessive load on the shelves could cause the side panels to warp; it is recommended not to overload them or to insert at least one melamine-coated shelf.

Example of combined composition

**NO**

## MODULARITY

- Since this is a container structure each element is complete with 2 side panels; the composition is assembled by fixing the various elements together.
- The fronts are always fit flush, so the side panels are covered by the doors or drawers.
- The overall size of the composition is therefore the sum of the individual fronts.

### Example A

Possible combinations of Wardrobes with the same height and depth.

### Example B

Possible combinations of Wardrobes and Container units with the same height and different depths.

### Example C

Possible combinations of Wardrobes with different heights and the same depth.

Corner wardrobe unit

Corner wardrobe

For technical details see the relevant chapters.

# OPTIONAL for wardrobes

## A Extra colors for Top panel, Bottom panel and Shelves

In addition to the standard CARCASE colors, these components are all available in the GROUP 2 colors with surcharge (see table).

- **When placing the order:** indicate the colour in the HORIZONTAL FINISHES variant in Metron 4: all top panels, bottom panels and shelves will automatically be delivered in that colour (if specified, the various elements can be coloured as preferred).
- **N.B.** The surcharge is applied to each single component.

Top panel Bottom panel Shelves	Surcharge for single element (CARCASE colors excluded)

W 45	
W 60	
W 90	
W 120	
Corner wardrobe units	
End units	
LOGIK end bookshelf	
QUID end bookshelf	

\* Depth service furniture

## B Extra colors for Side panels

In addition to the standard CARCASE colors, the side panels are available in all the GROUP 2 colors with surcharge (see table).

- **When placing the order:** indicate the colour in the COLOURED FINISHES variant in Metron 4: all side panels will automatically be delivered in that colour (if specified, 1, 2 or more side panels can be coloured as preferred).
- **N.B.** The surcharge is applied to each single side panel except for the END ELEMENTS, for which the choice of colour and surcharge refers to both side panels of the element.

Side panel	Surcharge for single element (CARCASE colors excluded)
	Dpt 56,3 - 72,3*

	Ht 241,6
	Ht 257,6
TWIG wardrobe side panels	Ht 184,2 Ht 216,2

\* Depth service furniture

## C Increased Back panel Th 0.8

On request the Wardrobe can be equipped with back panel Th 0.8 with surcharge (see table), in replacement of the standard back panel Th 0.3; unlike the standard one (in the CARCASE colors), the increased back panel is available in all GROUP 2 colors.

- **When placing the order:** indicate YES for increased back panel in the BACK PANEL TYPE variant and the colour in the BACK PANEL COLOUR variant in Metron 4: all back panels will automatically be supplied in the same type and colour (if specified, it is possible to change the back panel type and colour of the various elements as preferred).
- **N.B.** The surcharge is applied to each back panel.

Back panel Th 0.8	Surcharge for single element

\* For wardrobes with divided doors

## F Drawers and big drawers with soft-close

On request drawers and big drawers in the "standard" version can be equipped with soft-close mechanisms, with surcharge (see table). Alternatively, drawers and big drawers can be ordered in the CHARM version, with surcharge (see table), equipped with soft-close height-adjustable "Quadro" type runners with prestigious internal finish.

- **When placing the order:** indicate the type of runners in the RUNNER TYPE variant in Metron 4.
- **N.B.** The W 120 drawers and big drawers, and CLUB drawers and big drawers (all widths) with soft-close "Quadro" type runners are supplied standard in the CHARM version (without surcharge).

Slow closing	Surcharge for single element
Drawers W 45 - 60 - 90	
Big drawers W 45 - 60 - 90	
CHARM Drawers/Big drawers with "Quadro" type runners W 45 - 60 - 90	

# Made-to-measure solutions for hinged doors

## 🕒 Pitched roof cut

Minimum finished door slant 50°

Pitched roof cut on all elements.

FRONT VIEW  
Example 1:

When ordering, you must:

- Place single wardrobes (W 30/45/60) side by side for the desired length.
- Indicate the height of the LH wall (H1).
- Indicate the length (W) and the height of RH wall (H2).

Pitched roof cuts are made to measure only if requested with a detailed drawing.

POSSIBLE CUTS:

- Single wardrobe carcasses (W 30/45/60)
- ONE door at full-height

656 mm : Minimum wardrobe structure height  
2576 mm: Maximum wardrobe structure height  
2556 mm: Maximum door height with oblique cut

Pitched roof cut flanked by linear wardrobe.

FRONT VIEW  
Example 2:

When ordering, you must:

- Place single wardrobes (W 30/45/60) side by side for the desired length.
- Indicate the height of the LH wall (H1).
- Indicate the height of the RH wall (H2).
- Indicate the length (W) of the linear part.

N.B. A joining door will be created which will be aligned with the doors of the straight wardrobe (Fig.1).

## 🕒 Door protruding in height

SIDE VIEW  
Example 1:

When ordering, you must:

- Place the wardrobes side by side for the desired length.
- Indicate the height of the wardrobe carcass (H1).
- Indicate the height of the door (H2).

Compositions can be created with protruding doors only if requested with detailed drawing.

POSSIBLE CUTS:

- ONE door at full height

656 mm : Minimum wardrobe structure height  
2576 mm: Maximum wardrobe structure height  
2556 mm: Maximum protruding door height

SIDE VIEW  
Example 2:

When ordering, you must:

- Place the wardrobes side by side for the desired length.
- Indicate the minimum height of the wall (H1).
- Indicate the depth (Dpt) and the maximum height of the wall (H2).

### CAUTIONS:

- The wardrobe must consist of standard elements W 30/45/60 with full-height door; it is possible to reduce the height and width with the relative rules in the price list in the "Custom cuts" chapter.
- The hinges must always be positioned on the highest side of the door.
- Doors, which are lower by 110 cm, on the handle side, will be supplied with push pull opening.
- A 3 cm technical tolerance is always allowed between the diagonal of the ceiling and the diagonal of the door cut.

### CAUTIONS:

- The wardrobe must be composed of elements with standard structures, possibly reduced in height, width and depth with the relevant rules in the price list in the "Custom cuts" chapter.
- The doors can protrude a max. of 32 cm compared to the carcass.
- Doors, which are lower by 110 cm, will be supplied with push pull opening.
- In the case of a sloping ceiling (see example 2), a technical tolerance of 3 cm between the ceiling and the protruding door is always considered.

## Technical information

- The TV can be wall-mounted or placed on a base.
- The rear panel of the TV allows you to hide the cables of the various electronic devices; it is supplied with an 8-cm diameter cable pass-through channel to be fitted in place during assembly.
- The lighting consists of a led strip (60 leds per metre), optional with surcharge, to be applied on the rear TV back band, including power supply (which can power up to 4 led strips). The type of lighting is natural. It can be switched on in 2 ways: by plugging it in and using the wall switch or by ordering a wireless switch from the price list.

## Technical information

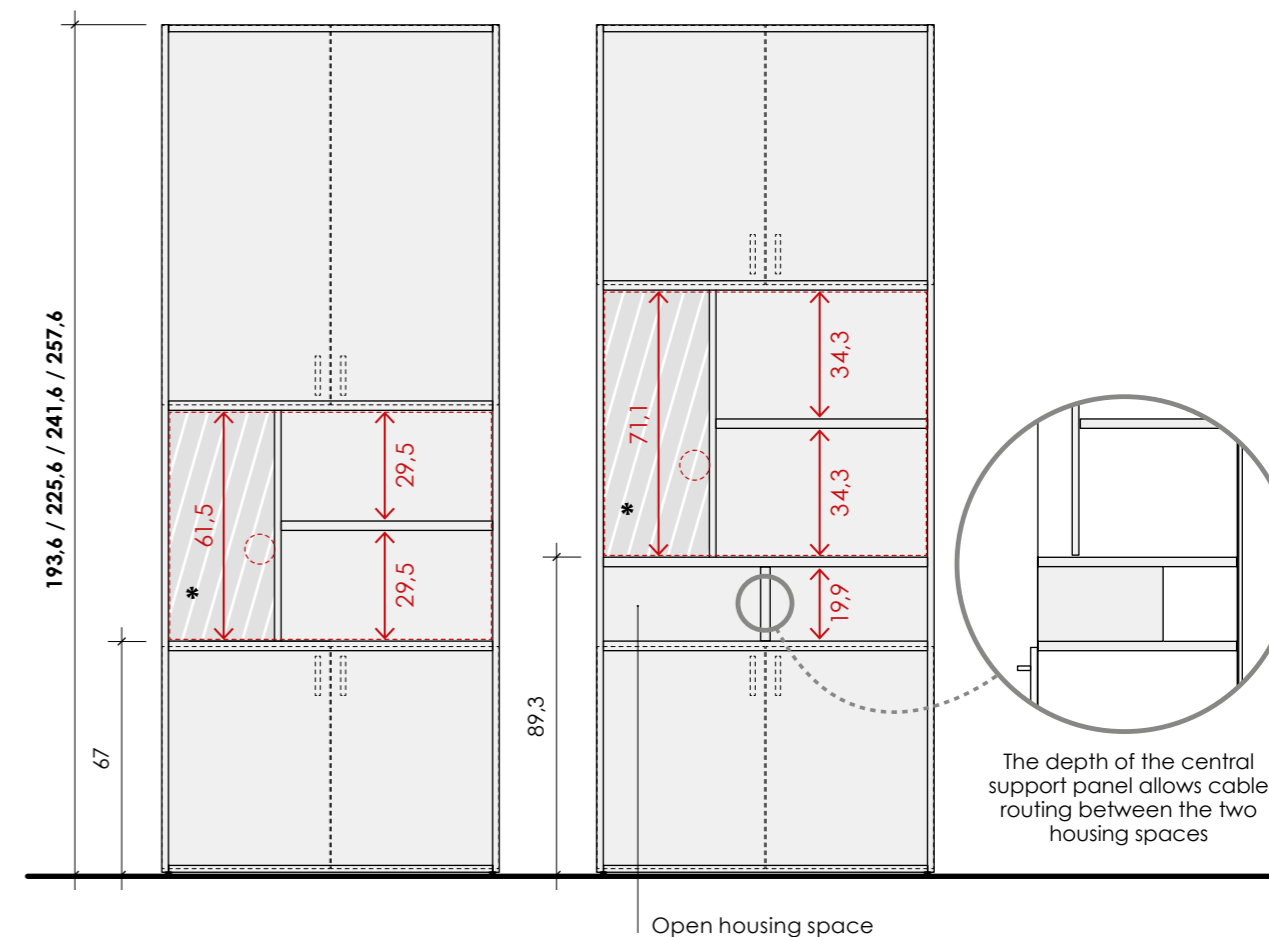

- TV stand door dimensions: W 85,5/115,5 - H 60,5 (A) and H 70 (B) - Th 1,8; maximum capacity 8 Kg.
- The TV stand door is equipped with: a vertical pivot and push-pull opening mechanism, cable grommet cut-out (in predefined position) and hole cover Ø 8.
- In versions with an open housing space (B), there is 1 hole cover for an additional grommet Ø 8, thus allowing cable routing from the open housing space to the TV housing space; the hole in the shelf is to be made by the client.

\* Technical compartment, not accessible

### Technical information

- They are equipped with adjustable feet.
- The doors are with decelerated hinges.
- The dimensions cannot be inverted. The handle is always on the R door.
- Internal fittings supplied consist in: a pair of clothes hanging bars in units Ht 193.6; a shelf and two pairs of clothes hanging bars in units Ht 225.6 - 241.6 - 257.6 - 289.6.
- So as to be able to open the doors fully we recommend placing W 45/60 elements in the corner with the hinges facing the corner itself and/or W 90 elements without drawers.
- For positioning units with a depth greater than 56.3 cm (example, beds, sofas, etc.) next to a corner wardrobe unit, observe the minimum distances indicated below.
- **For custom cuts consult the relevant chapter.**

Wardrobes hinged doors

# Service furniture Dpt 72.3 - technical information

## Technical information

- They are equipped with adjustable feet.
- The doors have soft-close hinges.
- They do not have a bottom panel.
- The service units are proposed in two types: with back panel that stops at the chain a few centimetres off the floor (Example 1) and for washing machines, with a back panel that stops at the upper chain, leaving an empty space at the back to allow the passage of the fill and drain pipes (Example 2).
- Inside, they can accommodate storage accessories Dpt 54.5 (open).
- **For custom cuts, see the relative chapter.**

# Container units - technical information

Components:

- 1 Top panel Th 1.8 - With eccentric pin system
- 2 Bottom panel Th 1.8 - With eccentric pin system
- 3 Side panels Th 1.8 - With prefitted hardware.
- 4 Back panel Th 0.3 or 0.8 (optional) - Fitting into shaped connection.
- 5 Movable shelf Th 2.5 - On runner.
- 6 Metal drawer runners
- 7 Strip led (optional) - In full height milled groove.
- 8 Adjustable middle-support feet

Dimensions:

- W 30 - 45 - 60 - 90 - 120  
 Dpt 45 - 32,5  
 Ht 193,6 - 225,6 - 257,6

- Shelves, top and bottom panels in carcass colours.
- These structures can only be placed on the ground.
- The side panels are flush with the top and bottom and have custom holes.
- The hardware is placed in a personalized fashion according to the position of the components.
- Tops are not finished.
- They are equipped with adjustable feet.

### IMPORTANT!

- The doors are fitted with decelerated hinges.
- The drawers and big drawer CLUB (all widths) and the drawers and big drawer W 120 are always fitted with height-adjustable, soft-close, "Quadro" type, metal slides with interior CHARM finish.
- **Internal fittings supplied with the Modular units Dpt 45** consist in melamine-coated inner movable shelves every 32 cm in line with open compartments; Modular units with doors Ht 224 - 256 are complete with 1 movable shelf.
- **Internal fittings supplied with the modular units Dpt 32.5** consist in melamine-coated inner movable shelves every 32 cm.
- **For custom cuts consult the relevant chapter.**
- In mixed compositions, the handles of the WINDOW doors are not aligned (see example).
- In units W 90 with doors W 30 + W 60 the direction is determined by the position of the door W 60 on the ground.
- Upon request, the doors can be supplied without a handle and without handle holes (not on CLUB and WINDOW).
- The Units with pairs of CLUB doors are provided with only one handle. In elements with doors W 30 + 60 the handle is placed on the W 60 door. Upon customer's request the CLUB handle can be mounted on both doors.
- In units Ht 193.6 - 225.6 - 257.6, with transparent glass shelves, an excessive load on the shelves could cause the side panels to warp; it is recommended not to overload them or to insert at least one melamine-coated shelf.

Example of combined composition

**NO**

### MODULARITY

- Since this is a container structure each element is complete with 2 side panels, the composition is assembled by fixing the various elements together.
- The fronts are always fit flush, so the side panels are covered by the doors or drawers.
- The overall size of the composition is therefore the sum of the individual fronts.

Ht 257.6

#### Example A

Possible combinations of Container units with the same height and depth.

Ht 257.6

#### Example B

Possible combinations of Wardrobes and Container units with the same height and different depths.

Ht 257.6

#### Example C

Possible combinations of Container units with different heights and the same depth.

# OPTIONAL for Container units

## A Extra colors for Side panels

In addition to the standard CARCASE colors, the side panels are available in all the GROUP 2 colors with surcharge (see table).

• **When placing the order:** indicate the colour in the COLOURED FINISHES variant in Metron 4: all side panels will automatically be delivered in that colour (if specified, 1, 2 or more side panels can be coloured as preferred).

• **N.B.** The surcharge is applied to each single side panel except for the END ELEMENTS, for which the choice of colour and surcharge refers to both side panels of the element.

Side panel	Surcharge for single element (CARCASE colors excluded)	
	Dpt 45	Dpt 32,5
Ht 193,6		
Ht 225,6		
Ht 257,6		
Pair of side panels for End units	Ht 193,6 Ht 225,6 Ht 257,6	-

## B Increased Back panel Th 0.8

On request the Container can be equipped with back panel Th 0.8 with surcharge (see table), in replacement of the standard back panel Th 0.3: unlike the standard one (in the CARCASE colors), the increased back panel is available in all GROUP 2 colors.

• **When placing the order:** indicate YES for increased back panel in the BACK PANEL TYPE variant and the colour in the BACK PANEL COLOUR variant in Metron 4: all back panels will automatically be supplied in the same type and colour (if specified, it is possible to change the back panel type and colour of the various elements as preferred).

• **N.B.** The surcharge is applied to each back panel.

Back panel Th 0.8	Surcharge for single element	
	Ht 193,6 - 225,6 - 257,6	
W 30		
W 40*		
W 45		
W 60		
W 90		
W 120		

\* Back panel for End units

## C Side panels with led lighting

On request the side panels can be equipped with led lighting, with surcharge (see table). Lighting consists in a full-height led strip inset into the side panel.

• **When placing the order:** indicate LIGHT RH SIDE, LIGHT LH SIDE or LIGHT ON BOTH SIDES in the SIDE PANEL LIGHTING variant in Metron 4.

• **N.B.** In End elements the lighting can only be inserted on the side panel Dpt 45.

Led side panel	Surcharge			
	1 side panel	2 side panels	1 side panel	2 side panels
	1 led strip + 1 sensor + 1 power supply	2 led strips + 1 sensor + 1 power supply	1 led strip + 2 sensors + 1 power supply	2 led strips + 2 sensors + 1 power supply
Ht 193,6				
Ht 225,6				
Ht 257,6				

\* For Container units with divided doors

## D Drawers and big drawers with soft-close

On request drawers and big drawers in the "standard" version can be equipped with soft-close mechanisms, with surcharge (see table). Alternatively, drawers and big drawers can be ordered in the CHARM version, with surcharge (see table), equipped with soft-close height-adjustable "Quadro" type runners with prestigious internal finish.

• **When placing the order:** indicate the type of runners in the RUNNER TYPE variant in Metron 4.

• **N.B.** The W 120 drawers and big drawers, and CLUB drawers and big drawers (all widths) with soft-close "Quadro" type runners are supplied standard in the CHARM version (without surcharge).

Slow closing	Surcharge for single element
Drawers W 45 - 60 - 90	
Big drawers W 45 - 60 - 90	
CHARM Drawers/Big drawers with soft-close "Quadro" type runners W 45 - 60 - 90

Wardrobes sliding doors

# Wardrobes with sliding doors - technical information

## Components:

- 1 Sliding system rails
- 2 Top panel Th 2.5 - With eccentric pin system
- 3 Bottom panel Th 2.5 - With eccentric pin system
- 4 Back panels Th 0.3 or 0.8 (optional) - Fitting into shaped connection.
- 5 External side panels Th 2.5 - With prefitted hardware.
- 6 Central panel (partition) Th 2.5
- 7 Movable shelves Th 2.5 Dpt 51.5 - On runner.
- 8 BASIC clothes hanging bar in chromed metal or PLUS clothes hanging bar (optional) in aluminum.
- 9 Strip led (optional) - In full height milled groove.
- 10 Adjustable feet - Adjustable from inside the wardrobe. Max. adjustment 1 cm.

## Dimensions:

- W** 180,1 (2 doors/sections)  
 268,9 (3 doors/sections)  
 268,9 (2 doors/sections)  
**Dpt** 61,5 (with sliding doors)  
**Ht** 225,6 - 241,6 - 257,6

- These structures can only be placed on the ground.
- Tops are not finished.
- They are equipped with adjustable feet.
- The wardrobes can be placed side by side.

## IMPORTANT!

- The mirror Th 0.4 is applied on a white melamine-coated panel Th 1.4.
- **Internal fittings supplied for every niche:** 2 clothes hanging bars and 1 melamine-coated movable shelf.
- **For custom cuts consult the relevant chapter.**
- We recommend fixing them to the wall with the provided hardware; if the depth has been reduced, they must be anchored to the wall.
- With small depth wardrobes we recommend using sliding clothes rails.
- For assembly, at least an extra 4 cm in width and at least an extra 8 cm in height is required (for the correct sliding of the doors in the niche you need at least 4 cm in height).

When ordering wardrobes with 2 doors, it is essential to specify whether the projecting door is R or L. The side panel next to the projecting door has depth 58 cm, while the side panel next to the non-projecting door is 54.5 cm deep.

The door opening diagram applies for all wardrobes with sliding doors. **Door opening directions cannot be reversed.**

# OPTIONAL for wardrobes with sliding doors

## A Extra colors for Top panel, Bottom panel and Shelves

In addition to the standard CARCASE colors, these components are all available in the GROUP 2 colors with surcharge (see table).

- **When placing the order:** indicate the colour in the HORIZONTAL FINISHES variant in Metron 4: the top panel, bottom panel and shelves will automatically be delivered in that colour (if specified, the various elements can be coloured as preferred).
- **N.B.** The surcharge is applied to each single component.

Top panel Bottom panel	Surcharge for single element (CARCASE colors excluded)
W 180,1	
W 268,9	
Shelves	Surcharge for single element (CARCASE colors excluded)
W 90	
W 135	

## D PLUS clothes-hanging bar

On request the wardrobe can be equipped with PLUS clothes-hanging bars with surcharge (see table). The PLUS clothes-hanging bar is in aluminium Ø 2,8, available in the Alluminio (AL1A) and Grigio titanio (GZ8T) colors.

- **When placing the order:** indicate PLUS clothes-hanging bar in the BAR TYPE variant and the colour in the BAR COLOUR variant in Metron 4.

Clothes-hanging bar	Surcharge for single element
W 90	
W 135	

## B Extra colors for Side panels

In addition to the standard CARCASE colors, the side panels are available in all the GROUP 2 colors with surcharge (see table).

- **When placing the order:** indicate the colour in the COLOURED FINISHES variant in Metron 4: all side panels will automatically be delivered in that colour (if specified, 1, 2 or more Side panels can be coloured as preferred).
- **N.B.** The surcharge is applied to each single side panel.

Side panels	Surcharge for single element (CARCASE colors excluded)
Ht 225,6	
Ht 241,6	
Ht 257,6	

## E Side panels with led lighting

On request the side panels can be equipped with led lighting, with surcharge (see table). Lighting consists in a full-height led strip inset into the side panel.

- **When placing the order:** indicate LIGHT RH SIDE, LIGHT LH SIDE or LIGHT ON BOTH SIDES in the SIDE PANEL LIGHTING variant in Metron 4. The choice applies to all Wardrobe compartments.

for Wardrobe 2 compartments	Surcharge	
	L or R side panels 2 led strips + 2 sensors + 2 power packs	All side panels 4 led strips + 2 sensors + 2 power packs
Ht 225,6		
Ht 241,6		
Ht 257,6		
for Wardrobe 3 compartments	Surcharge	
	L or R side panels 3 led strips + 3 sensors + 3 power packs	All side panels 6 led strips + 3 sensors + 3 power packs
Ht 225,6		
Ht 241,6		
Ht 257,6		

## C Increased Back panel Th 0.8

On request the Wardrobe can be equipped with back panels Th 0.8 with surcharge (see table), in replacement of the standard back panel Th 0.3; unlike the standard one (in the CARCASE colors), the increased back panel are available in all GROUP 2 colors.

- **When placing the order:** indicate YES for increased back panel in the BACK PANEL TYPE variant and the colour in the BACK PANEL COLOUR variant in Metron 4.

Back panel Th 0.8 for wardrobe	Surcharge for single element
	Ht 225,6 - 241,6 - 257,6
W 180,1 (2 sections)	
W 268,9 (3 sections)	
W 268,9 (2 sections)	

## F Soft-close sliding doors

On request the doors can be equipped with soft-close opening/closure, with surcharge (see table).

- **When placing the order:** indicate soft-close doors in the DOOR SOFT-CLOSE variant in Metron 4.

Slow opening/closing	Surcharge
2 sliding doors	
3 sliding doors

# Walk-in wardrobes - technical information

SMALL walk-in wardrobe 98.7 x 98.7

BIG walk-in wardrobe 119.9 x 119.9

LARGE walk-in wardrobe 98.7 x 140.5/150.5

Components:

- 1 Top panel Th 1.8 - With eccentric pin system
- 2 Back panel Th 1.8
- 3 Side panel Th 1.8 Dpt 56.3 - With prefitted hardware.
- 4 Side panel Th 1.8 Dpt 96/106 (2 pieces) - With prefitted hardware.
- 5 BASIC clothes hanging bar in chromed metal PLUS clothes hanging bar (optional) in aluminum.
- 6 Movable shelf Th 2.5 Dpt 41.7 - On runner.
- 7 Strip led (optional) - In full height milled groove.
- 8 Adjustable middle-support feet
- 9 Metal back retainer

- They are equipped with adjustable feet.
- The doors are fitted with decelerated hinges.
- They have no bottom panel.
- They cannot be fitted with doors with a lock.
- **For custom cuts consult the relevant chapter.**

### IMPORTANT!

- We recommend using the SMALL walk-in wardrobe together with a wardrobe or another unit on both sides of it that will make it more stable.
- You can juxtapose to walk-in wardrobes only elements that have the same or lower depth compared to the walk-in wardrobe side panel (see examples **A**).
- For wardrobes W 45 or W 60 alongside the walk-in, these must be positioned with the hinges facing the walk-in (see example **B**).
- Walk-in wardrobes with pairs of CLUB doors are provided only with one handle. Upon customer's request the CLUB handle can be mounted on both doors.

### Use examples for LARGE walk-in wardrobes (Drawing RH)

- \* If an overhead structure with rear overhead panels is positioned alongside the LARGE Walk-in, the effective depth of the under-overhead compartment is obtained by subtracting 4 cm. from the total depth. Example: in the LARGE Walk-in measuring 98.7 x 140.5 the effective depth of the walk-in side panel is  $96 - 4 = 92$  cm.

# OPTIONAL for walk-in wardrobes

SMALL walk-in wardrobe

## B Extra colors for Side panels

In addition to the standard CARCASE colors, the side panels are available in all the GROUP 2 colors with surcharge (see table).  
 • **When placing the order:** indicate the colour of the side panels in the COLOURED FINISHES variant in Metron 4.

Side panels	Surcharge for couple side panels (CARCASE colors excluded)
Ht 193,6	
Ht 225,6	
Ht 241,6	
Ht 257,6	

BIG walk-in wardrobe

## C Extra colors for Back panels

In addition to the standard CARCASE colors, the back panels are available in all the GROUP 2 colors with surcharge (see table).  
 • **When placing the order:** indicate the colour of the back panels in the BACK PANEL COLOUR variant in Metron 4.

Back panels	Surcharge for single element (CARCASE colors excluded)
	Ht 193,6 - 225,6 - 241,6 - 257,6
SMALL	
BIG	
LARGE	

LARGE walk-in wardrobe

## D PLUS clothes-hanging bar

On request the walk-ins can be equipped with PLUS clothes-hanging bars with surcharge (see table). The PLUS clothes-hanging bar is in aluminium Ø 2,8, available in the Alluminio (AL1A) and Grigio titanio (GZ8T) colors.  
 • **When placing the order:** indicate PLUS clothes-hanging bar in the BAR TYPE variant and the colour in the BAR COLOUR variant in Metron 4.

Clothes-hanging bars	Surcharge for single element
W 77,5 SMALL end LARGE	
W 46,7 SMALL	
W 108,7 BIG	
W 70 BIG	

## A Extra colors for Top panel and Shelves

In addition to the standard CARCASE colors, these components are all available in the GROUP 2 colors with surcharge (see table).  
 • **When placing the order:** indicate the colour in the HORIZONTAL FINISHES variant in Metron 4: the top panel and shelves will automatically be delivered in that colour (if specified, the various elements can be coloured as preferred).  
 • **N.B.** The surcharge is applied to each single component.

Top panel Shelf	Surcharge for single element (CARCASE colors excluded)
SMALL top panel	
BIG top panel	
LARGE top panel	
SMALL and LARGE shelf W 90,1	
BIG shelf W 114,7	
SMALL corner shelves	
BIG corner shelves	
LARGE corner shelves	

## E Side panels with led lighting

On request the side panels can be equipped with led lighting, with surcharge (see table). Lighting consists in a full-height led strip inset into the side panel.  
 • **When placing the order:** indicate LIGHT ON BOTH SIDES in the SIDE PANEL LIGHTING variant in Metron 4.

Led side panels	Surcharge couple side panels 2 led strips + 1 sensor + 1 power supply

# Made-to-measure gaps for walk-in wardrobe

## SMALL walk-in wardrobe

**POSSIBLE CUTS:**

- All SMALL walk-in wardrobes with universal gap

65 mm : Minimum gap width  
467 mm : Maximum gap width

## Left LARGE walk-in wardrobe

**POSSIBLE CUTS:**

- All left LARGE walk-in wardrobes with universal gap

65 mm : Minimum gap width  
467 mm : Maximum gap width

## BIG walk-in wardrobe

**POSSIBLE CUTS:**

- All BIG walk-in wardrobes with universal gap

65 mm : Minimum gap width  
432 mm : Maximum gap width

## Right LARGE walk-in wardrobe

**POSSIBLE CUTS:**

- All right LARGE walk-in wardrobes with universal gap

65 mm : Minimum gap width  
467 mm : Maximum gap width

**For made-to-measure gap:**

- Always start with the universal gap Walk-in wardrobe code and set the gap size of the pillar.
- To add shelves, they must be indicated with a drawing inside the Walk-in wardrobes.

# SMALL walk-in wardrobes Dpt 56.3 - W 98.7 x 98.7

• Version with 1 whole door W 60 with 45° hinges supplied at the base unit of dust catcher brush. **105° opening.** The side panel opposite the one with mounting plates has a vertical dust catcher.

• Version with 2 whole doors W 30 with 45° hinges supplied at the base unit of dust catcher brush. **105° opening.** The L door is fitted with a vertical dust catcher.

# FLEXO walk-in closet - technical information

## FLEXO Ht 193.6 - 225.6 - 241.6 - 257.6

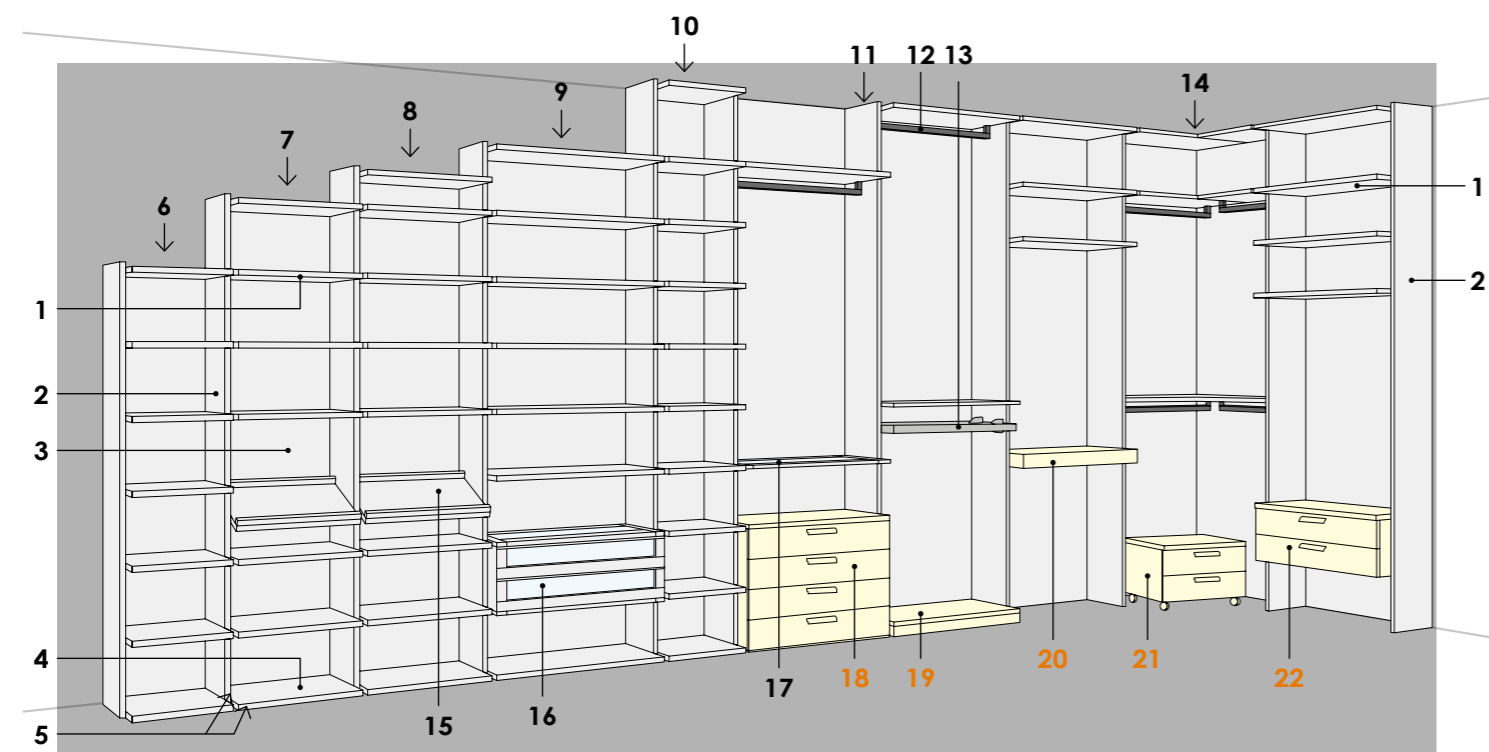

- Structure equipped and with elements in succession.
- The side panels are fixed to the wall using the supplied hardware.
- Side panels are pre-drilled for shelves with a pitch of 32 cm except the last compartment at the top which has a 28 cm wheelbase.
- The bottom panel can be added or not, depending on the use of the unit.
- The shelves and the bottom (if there is one), are fixed to the side panels with shelf blocking support systems.
- The shelves can be equipped with PLUS clothes-hanging bars and led lighting.
- Back panels (if present) always cover the full height of the unit and are included and fixed between the side panels.
- In the event of recess mounting, an extra 1.5 cm space in width is required in presence of a back panel and 0.5 cm in absence of a back panel (in order to balance any size differences).
- You cannot alternate modules with a back panel and modules without in the same composition.
- It can also be combined with modular wardrobes and walk-in wardrobes.

## FLEXO Ht 103 ÷ 302 - Side panels are fixed between floor and ceiling

- The structure can be equipped for ceiling support and is adjustable in height for rooms/recesses with dimensions Ht 302 cm max to 103 cm min.
- The height of the side panels and back panel, if there is one, must be adjusted in relation to the distance between floor and ceiling; this distance must be indicated when ordering.
- The side panels are fixed between floor and ceiling, with adjustable middle-support feet (top and bottom) which allow a maximum adjustment of 10 mm for each side (20 total). We recommend that you check the room height in more than one point in order to find excessive differences. With false ceilings you should check that in the event of inflection, the height difference does not exceed the 2 cm maximum adjustable range of the middle-support feet.
- Side panels are pre-drilled with a pitch of 32 cm (from the bottom) for shelves; there is also a pre-drilled hole at 37 mm from the top edge of the side panel for the insertion of a finishing top shelf which will be lowered 24 mm in respect to the side panel after mounting (in order to allow its positioning).
- The bottom panel can be added or not, depending on the use of the unit.
- The shelves and the bottom (if there is one), are fixed to the side panels with shelf blocking support systems.
- The shelves can be equipped with PLUS clothes-hanging bars and led lighting.
- Back panels (if present) always cover the full height of the unit and are included and fixed between the side panels.
- In the event of recess mounting, an extra 1.5 cm space in width is required in presence of a back panel and 0.5 cm in absence of a back panel (in order to balance any size differences).
- You cannot alternate modules with a back panel and modules without in the same composition.

### When ordering you must:

- Draw and/or send a drawing of the whole composition. We recommend using our graphic software.
- Make sure that every composition is provided with an end side panel.
- For FLEXO Ht 103 ÷ 302, indicate the height of the room (floor-ceiling).

## PLUS clothes-hanging bars in aluminum

It is fixed to the shelf/top panel.  
Available in Alluminio (AL1A) and Grigio titanio (GZ8T) colors.  
Tube Ø 2.8.

## Wooden shelf with led strip light

The light is a led strip (60 led/m) assembled on the back side of the shelf.  
The strip shares the same length with the shelf and it enlightens the compartments above and below.  
The colour tone of the led strip is natural.  
We provide a power pack (with a surcharge) able to support from 1 to 6 shelves W 45/60 or from 1 to 4 shelves W 90.

## Led spot light

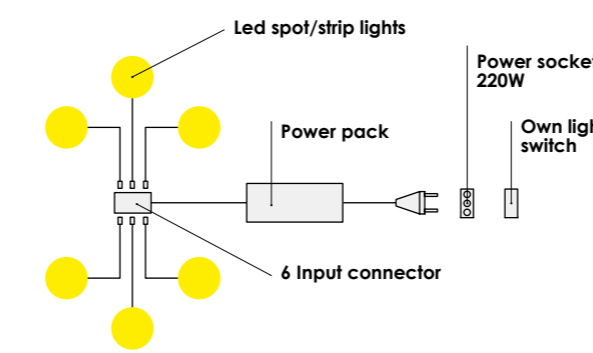

The lighting type is natural.  
We provide a power pack (with a surcharge) able to support from 1 to 6 spotlights.  
Spot lights are assembled as showed below (wiring in sight).

## On/off switch

The on/off switching of the led spot light or led strip light can be done in 2 different ways:

- 1) By connecting the power pack to your home electrical system and using your own standard power switch.
- 2) By ordering our wireless on/off switch from catalogue. This switch allows you to turn on or off all the led lights (Max 30 strip led or spot lights).

## Components:

- 1 Top panel Th 1.8 - With eccentric pin system
- 2 Bottom panel Th 1.8 - With eccentric pin system
- 3 Side panels Th 1.8 - With prefitted hardware.
- 4 Shaped side panel Th 1.8 - With prefitted hardware.
- 5 Side support panels Th 2.5
- 6 Back panel Th 0.3 or 0.8 (optional) - Fitting into shaped connection.
- 7 BASIC clothes hanging bar in chromed metal  
PLUS clothes hanging bar (optional) in aluminum.
- 8 Shelf for open-plan compartment Th 2.5 Dpt 28.6 - On runner.
- 9 Dividing movable shelf Th 2.5 Dpt 53 - With sliding support.
- 10 Metal drawer runners
- 11 Metal bars
- 12 Panel compartment for inspection
- 13 Back panels (optional)
- 14 Adjustable middle-support feet

## Wardrobes with shaped side panels

Dimensions:

W 45 - 60 - 90

Dpt 56,3

Ht 225,6 - 241,6 - 257,6

- These structures can only be placed on the ground.
- The side panels are flush with the top and bottom and have custom holes.
- The hardware is placed in a personalized fashion according to the position of the components.
- Tops are not finished.
- They are equipped with adjustable feet.
- The doors are fitted with decelerated hinges.
- The drawers and big drawer CLUB are always fitted with height-adjustable, soft-close, Quadro, metal slides with interior CHARM finish.
- **Internal equipment included:** 1 x clothes rail.
- **For custom cuts consult the relevant chapter.**
- In the 90-wide elements with 30 + 60-cm wide doors, the direction is determined by the position of the 60-cm wide door.
- On request, the doors can be supplied without a handle and holes for the handle (Not CLUB doors).
- The Wardrobes with pairs of CLUB doors are provided with only one handle. In elements with doors W 30 + 60 the handle is placed on the W 60 door. Upon customer's request the CLUB handle can be mounted on both doors.
- **Shelf with led for open-plan compartment:** The lighting consists of a led strip (60 leds/m) placed on the rear of the shelf. The strip is the same length as the shelf and lights the upper and lower compartment by reflecting in the backboard. The type of lighting is natural. A power supply unit is supplied (with surcharge) that can power from 1 to 6 shelves x 45/60-cm wide or 1 to 4 x 90-cm wide shelves. It can be switched on in 2 ways: by plugging it in and using the wall switch or by ordering a wireless switch from the price list.

W 30 - 45 - 60 - 90

Dpt 56,3

Ht 96 - 112 - 128

- The wall-mounted elements must be assembled using the hardware provided.
- The doors are with decelerated hinges.
- **Internal equipment included:** 1 clothes hanging bar for every niche.
- **For custom cuts consult the relevant chapter.**
- In units W 90 with doors W 30 + W 60 the direction is determined by the position of the door W 60.
- Upon request, the doors can be supplied without a handle and without handle holes (Not CLUB doors).
- The elements with pairs of CLUB doors are provided with only one handle. In elements with doors W 30 + W 60 the handle is placed on the W 60 door. Upon customer's request the CLUB handle can be mounted on both doors.
- **Compositions must be completed with Wardrobes, the Side support panel or SMART support bookcases.**
- **For correct arrangement of the elements, it is essential to send a design of the complete overhead structure. The support elements have customised holes in the metal bars every 32 cm at a height of 131 cm from the ground.**
- The use of rear panels is optional, except for corner overhead structures.
- The effective depth of the under-overhead compartment, in the presence of rear panels, is reduced by 4 cm (56.3 - 4 = 52.3 cm).

## RIALTO over-bar wardrobe with bellow doors

Dimensions:

W 210

Dpt 56,3

Ht 96 - 112 - 128

- The elements must be secured to the wall using the supplied hardware.
- **Internal equipment included:** 1 clothes hanging bar for every niche.
- **Custom cuts are not envisaged.**
- **Compositions must be completed with Wardrobes, the Side support panel or SMART support bookcases.**
- **For correct arrangement of the elements, it is essential to send a design of the complete overhead structure. The support elements have customised holes in the metal bars every 32 cm at a height of 131 cm from the ground.**
- They are always equipped with a rear panel.
- The effective depth of the under-overhead compartment is 52,3 cm.

# Loft beds - technical information

## Components:

- 1 Top panel Th 1.8 - With eccentric pin system
- 2 Bottom panel Th 1.8 - With eccentric pin system
- 3 Side panels Th 1.8 - With prefitted hardware.
- 4 Side support panels Th 2.5
- 5 Back panel Th 0.3 or 0.8 (optional) - Fitting into shaped connection.
- 6 Wardrobe back panel Dpt 88.5, Th 1.8
- 7 BASIC clothes hanging bar in chromed metal  
PLUS clothes hanging bar (optional) in aluminum.
- 8 Magazine holder
- 9 Dividing movable shelf Th 2.5 Dpt 53 - With sliding support.
- 10 Movable shelf Th 2.5 Dpt 28.6 (optional) - With sliding support.
- 11 Metal drawer runners
- 12 Metal bars
- 13 Panel compartment for inspection
- 14 Adjustable middle-support feet
- 15 Back panels
- 16 Shaped panel Sp 2.5 for platform bed headboard
- 17 Platform bed side panels
- 18 Platform bed base (vault)
- 19 Shaped side Th 2.5 for platform bed

## IMPORTANT!

- All Loft beds are fitted with adjustable feet.
- The doors are fitted with decelerated hinges.
- The drawers and big drawer CLUB are always fitted with height-adjustable soft-close "Quadro" metal slides with interior CHARM finish.
- **Internal fittings supplied consist in: Wardrobes Dpt 87.7 and Bridge units Dpt 56.3** are equipped with 1 clothes hanging bar.
- **For custom cuts consult the relevant chapter.**
- Upon request, the doors can be supplied without a handle and without handle holes (Not CLUB doors).
- Loft beds are retrofitted; the KINTAI loft bed can also be placed in the center of the room.
- **For the overturning bed use only the mattresses W 75.**
- Platform beds with overturning base cannot be used in IRON, CREEK and HELIX loft beds.
- **When ordering have to be added: a platform bed, the metal ladder, the ladders with shaped sides, 1 or more guards.**
- Panel compartment for inspection in carcass colours.

## Loft beds examples

## OPTIONAL for Loft beds

### A Extra colors for Top panel, Bottom panel and Shelves

In addition to the standard CARCASE colors, these components are all available in the GROUP 2 colors *with surcharge* (see table).

- **When placing the order:** indicate the colour in the HORIZONTAL FINISHES variant in Metron 4: all top panels, bottom panels and shelves will automatically be delivered in that colour (if specified, the various elements can be coloured as preferred).
- **N.B.** The surcharge is applied to each single component.

Top panel Bottom panel (bridge unit Dpt 56.3)	Surcharge for single element (CARCASE colors excluded)
W 45	
W 90	
Top panel Bottom panel Shelves (wardrobe Dpt 87.7)	Surcharge for single element (CARCASE colors excluded)
W 45	
W 90	

### B Extra colors for Side panels

In addition to the standard CARCASE colors, the side panels are available in all the GROUP 2 colors *with surcharge* (see table).

- **When placing the order:** indicate the colour in the COLOURED FINISHES variant in Metron 4: all side panels will automatically be delivered in that colour (if specified, 1, 2 or more side panels can be coloured as preferred).
- **N.B.** The surcharge is applied to each single side panel.

Side panel (bridge unit Dpt 56.3)	Surcharge for single element (CARCASE colors excluded)
Ht 96	
Ht 112	
Ht 128	
Side panel (wardrobe Dpt 87.7)	Surcharge for single element (CARCASE colors excluded)
Ht 136	

### C Increased Back panel Th 0.8

On request the overhead Wardrobe can be equipped with a back panel Th 0.8 *with surcharge* (see table), in replacement of the standard back panel Th 0.3; unlike the standard one (in the CARCASE colors), the increased back panel is available in all GROUP 2 colors.

- **When placing the order:** indicate YES for increased back panel in the BACK PANEL TYPE variant and the colour in the BACK PANEL COLOUR variant in Metron 4: all back panels will automatically be supplied in the same type and colour (if specified, it is possible to change the back panel type and colour of the various elements as preferred).
- **N.B.** The surcharge is applied to each back panel.

Back panel Th 0.8 (bridge unit Dpt 56.3)	Surcharge for single element
	Ht 96 - 112 - 128
W 45	
W 90	

### D PLUS clothes-hanging bar

On request the wardrobe can be equipped with PLUS clothes-hanging bars *with surcharge* (see table). The PLUS clothes-hanging bar is in aluminium Ø 2.8, available in the Alluminio (AL1A) and Grigio titanio (GZ8T) colors.

- **When placing the order:** indicate PLUS clothes-hanging bar in the BAR TYPE variant and the colour in the BAR COLOUR variant in Metron 4: all bars will automatically be delivered in the same type and same colour.

Clothes-hanging bar	Surcharge for single element
W 45	
W 90	

### E Drawers and big drawers with soft-close

On request drawers and big drawers in the "standard" version can be equipped with soft-close mechanisms, *with surcharge* (see table). Alternatively, drawers and big drawers can be ordered in the CHARM version, *with surcharge* (see table), equipped with height-adjustable "Quadro" type runners with prestigious internal finish.

- **When placing the order:** indicate the type of runners in the RUNNER TYPE variant in Metron 4.
- **N.B.** the CLUB drawers and big drawers are standard in the CHARM version with soft-close "Quadro" type runners (without surcharge).

Slow closing	Surcharge for single element

Roll-up slatted base  
Ht 3 - Dpt 190 - W 80

Code **P07.91G**

Example:

- 1 PK40.60C BASE side panel (L)
- 2 PK40.59F Central structure
- 3 PK40.62R DUNA side panel (R)

Ladders with shaped sides can only be used against the DUNA side panel.

**Compositions MUST consist of the central structure complete with two shaped side panels, one on the right and one on the left.**

**It is essential to send a drawing of the complete composition to allow the elements to be prepared correctly.**

**When ordering, the shaped side panels, the metal ladder or the ladders with shaped sides have to be added.**

**1 or more guards must be ordered.**

**For the fold-away bed use only mattress W 75.**

## Container beds

## Containers and auxiliary containers

### Example of using containers:

To create a FLOTTA composition, simply choose from the available elements (see opposite page), rotate them (if necessary) and place them next to each other, positioning them as desired. When finished positioning, secure the containers with the hardware provided.

# Groups with top and with top and base technical information

Components:

- 1 Top panel Th 2.5
- 2 Top panel Th 1.8
- 3 Bottom panel Th 1.8  
The bottom panel can be fitted with:
  - ALFA-25 adjustable feet Ht 2.5
  - DELTA adjustable feet Ht 11
  - NUME adjustable feet Ht 11
  - EPSILON adjustable feet Ht 15.5
  - TWIG adjustable feet Ht 16
  - Castor wheels Ht 8
- 4 Back panel Th 0.3
- 5 Side panels Th 1.8
- 6 Metal drawer runners
- 7 Base Th 2.5  
The base can be fitted with:
  - DELTA adjustable feet Ht 11
  - NUME adjustable feet Ht 11
  - EPSILON adjustable feet Ht 15.5
  - TWIG adjustable feet Ht 16
  - Castor wheels Ht 8

- Top panel, bottom panel and back panel in carcass colours.
- Custom-made cuts are not carried out.
- The drawers and big drawer CLUB are always fitted with height-adjustable, soft-close, "Quadro", metal slides with interior CHARM finish.
- It is compulsory to complete the elements with feet or wheels.

### Bedside tables

Dimensions:

**Ht** 101,5 - 133,5 (with base)

# OPTIONAL groups with top and with top and base

### A Extra colors for Side panels (+ Top / + Top and Base)

In addition to the standard CARCASE colors, the side panels are available in all the GROUP 2 colors with surcharge (see table).  
 • **When placing the order:** indicate the colour in the COLOURED FINISHES variant in Metron 4: all side panels will automatically be delivered in that colour.  
 • **N.B.** The colour of the side panels will also determine the colour of the Top panel and of the Top panel and base.

### B Drawers and big drawers with soft-close

On request drawers and larger drawers in the "standard" version can be equipped with soft-close mechanisms, with surcharge (see table). Alternatively, drawers and big drawers can be ordered in the CHARM version, with surcharge (see table), equipped with height-adjustable "Quadro" type runners with prestigious internal finish.  
 • **When placing the order:** indicate the type of runners in the RUNNER TYPE variant in Metron 4.  
 • **N.B.** the CLUB drawers and big drawers are standard in the CHARM soft-close "Quadro" type runners version (without surcharge).

# Single beds with metal bed frame

**Ht 29**  
Complete with slatted base

With 4 feet

## COMPATIBLE WITH HEADBOARDS

With 4 castor wheels with brake

W	internal dimensions	Code	Code
193 x 88	189 x 84	H26.93P	P51.89N
193 x 98	189 x 94	H26.66S	P52.87E
193 x 128	189 x 124	H34.78C	P52.91B

**Ht 29**  
Complete with slatted base

With 2 feet and 2 castor wheels with brake (reversible)

## NOT COMPATIBLE WITH HEADBOARDS

W	internal dimensions	Code
193 x 88	189 x 84	H26.94U
193 x 98	189 x 94	H26.67X
193 x 128	189 x 124	H34.80P

Add Dpt 193 to the depth of the chosen headboard to obtain the total depth of the bed. Headboards are raised above the ground.

Example of how to order a bed complete with headboard.

- 1) Choose the metal bed frame (example code H26.93P). State the colour (example Alluminio - AL1A).
- 2) State the foot colour (example Alluminio - AL1A).
- 3) Choose bed or ottoman headboard (example Normale bed headboard code P43.26Z colour Bianco opaco - B17A).
- 4) State the colour of the detail (example Agave - GV7A).

If a metal bed frame or a Somier with 2 feet and two wheels is selected, the application of headboards is NOT RECOMMENDED.

In the metal bed frame with 2 feet and 2 wheels, the feet and wheels may be installed as preferred (as shown).

• Wheels  
• Feet

□ Components in **CARCASE** colors

□ Components in **GROUP 2** colors

▣ Padded components with not removable covers.

◌ Shaped components available with contrasting edging.

◌ The headboard and foot panel can be two-coloured.

With 4 castor wheels with brake

W	internal dimensions	Code	Code
198 x 88	195 x 83	H26.60K	P51.92D
198 x 98	195 x 93	H26.75R	P52.89R
198 x 128	195 x 123	H34.88G	H34.92D

Add Dpt 198 to the depth of the chosen headboard to obtain the total depth of the bed. Headboards are raised above the ground.

Example of how to order a bed complete with headboard.

- 1) Choose the Somier (example Code H26.60K colour Giallo zafferano - GZ8A).
- 2) State the foot colour (example Alluminio - AL1A).
- 3) Choose bed or ottoman headboard (example Normale bed headboard code P43.26Z colour Bianco opaco - B17A).
- 4) State the colour of the detail (example Agave - GV7A).

If a metal bed frame or a Somier with 2 feet and two wheels is selected, the application of headboards is NOT RECOMMENDED.

In the metal bed frame with 2 feet and 2 wheels, the feet and wheels may be installed as preferred (as shown).

• Wheels  
• Feet

Components in **CARCASE** colors

Components in **GROUP 2** colors

Padded components with not removable covers.

Shaped components available with contrasting edging.

The headboard and foot panel can be two-coloured.

## Desks - technical information

### 1 DESK TOPS

- Desk tops Th 1.8 and 2.5 cm are available in various standard sizes or custom sized (Th 2.5 only), with straight or shaped edges.
- Custom-made cuts are not available on shaped desk tops (except for custom-made items WITHOUT HOLES).
- Shaped components available with contrasting edging.
- **Built-in technology:**  
The desk tops can be fitted with optional built-in technology. The built-in technology consists of a cable pass-through channel, wireless charger<sup>1</sup> and two USB slots<sup>2</sup>, which can be added individually or combined. The holes on the desk top will be positioned by us as indicated in the chapter "Holes for built-in technology".  
**The built-in technology will be available on PODIO, POLDO, SG100, SG101, SG102, SG500, SG200, SG201, LINEA Dpt 57.1 and 45.8, ANCORA, TWIG and FLY desks.**

- <sup>1</sup> Wireless charging:  
**Qi wireless charging standard**
- <sup>2</sup> Dual USB socket:  
**Output: 5V DC - 2,10A Max. (1 x 2,10A) (2 x 1,05A)**

### 2 WRITING-DESK BLOCKS AND DRAWER UNITS

- Custom-made cuts are not available on Writing-desk blocks, Drawer units and metal parts.
- The doors are fitted with decelerated hinges.
- The drawers and big drawer CLUB are always fitted with height-adjustable, soft-close, "Quadro", metal slides with interior CHARM finish.
- Shelf, top, bottom and back panels in carcass colours.

### 3 DESK SUPPORTS

- Supports must only be used as recommended in the price list.
- All supports are Ht 75.1.
- Custom-made cuts are not available on metal supports and panel supports.
- **SLIM legs are always fitted at right angles to each other. This type of assembly also gives the desk greater stability.**

Panel supports:

Metal supports:

## OPTIONAL for desks

Writing-desk block

Drawer units

### A Extra colors for Side panels Writing-desk block and Drawer units

In addition to the standard CARCASE colors, the side panels are available in all the GROUP 2 colors with surcharge (see table).

- **When placing the order:** indicate the colour in the COLOURED FINISHES variant in Metron 4: all side panels will automatically be delivered in that colour.
- **N.B.** For the drawer units, the colour of the side panels will also determine the colour of the top.

### B Drawers and big drawers with soft-close

On request drawers and big drawers in the "standard" version can be equipped with soft-close mechanisms, with surcharge (see table). Alternatively, drawers and big drawers can be ordered in the CHARM version, with surcharge (see table), equipped with height-adjustable "Quadro" type runners with prestigious internal finish.

- **When placing the order:** indicate the type of runners in the RUNNER TYPE variant in Metron 4.
- **N.B.** the CLUB drawers and big drawers with soft-close "Quadro" type runners are supplied standard in the CHARM version (without surcharge).

Side panels	Surcharge (CARCASE colors excluded)
Writing-desk block	
Drawer units	

Slow closing	Surcharge for single element
Drawers W 45 - 60 - 90	
Big drawers W 45 - 60 - 90	
CHARM Drawers/Big drawers with "Quadro" slides W 45 - 60 - 90	

### C Extra colors for Metal leg disc

The metal Leg is available in the colors Bianco opaco (BI7A) or Alluminio (AL1A); the disc at the base can be in a colour selected from among those available (see indications) with surcharge.

- **When placing the order:** indicate the colour of the disc in the FINISHES variant in Metron 4.
- **N.B.** The disc in the colour Alluminio (AL1A) does not have a surcharge.

BI7A GZ8T GV7A CQ3Q BI4B BO7H CP4J RB7Y CR5T AL1A

# Holes for built-in technology drilled by us on customer request

## Built-in technology:

When ordering a desk, it can be fitted with built-in accessories requiring holes to be drilled in the tops. One or more accessories can be chosen.

The elements on which these accessories can be fitted and the method for making the holes are described in these pages. Any exceptions are outlined in the technical specifications for each model.

<sup>1</sup> Wireless charging:  
**Qi wireless charging standard**

<sup>2</sup> Dual USB socket:  
**Output: 5V DC - 2,10A Max. (1 x 2,10A) (2 x 1,05A)**

## DESK: PODIO

You can specify R or L on the PODIO W 120.  
Specify if you want the slot for the "D" cable pass-through on the right or left for PODIO W 150.

**N.B. The position of the holes is valid when ordering 1 or 2 accessories.**

## DESKS with top Th 2.5: POLDO, SG100, SG101, SG102, SG500, SG200, SG201, LINEA, ANCORA, TWIG and FLY

# Desks with POLDO shaped top Ht 77.6 - Dpt 60

## POLDO top Th 2.5

The top is shaped with ABS edging. Tops CANNOT be cut to customised.

On request, the top can be fitted with the following built-in technology:

The holes required will be drilled in fixed positions. For details, see the chapter "Holes for built-in technology".

# Desks with SG100 shaped top Ht 77.6 - Dpt 65

## SG100 top Th 2.5

The top is shaped with ABS edging. Tops CANNOT be cut to customised. Desks W 165 and W 180 are complete with anti-bending bar. Specify R or L (L in drawing).

On request, the top can be fitted with the following built-in technology:

The holes required will be drilled in fixed positions. For details, see the chapter "Holes for built-in technology".

**OPTIONAL:** C - Extra colors for Metal leg disc  
p. 409

- Shaped tops Th 2.5 with ABS edging.
- Without holes or prefitted hardware.
- It is essential to send a drawing.

**R = The radius of curvature cannot be changed**

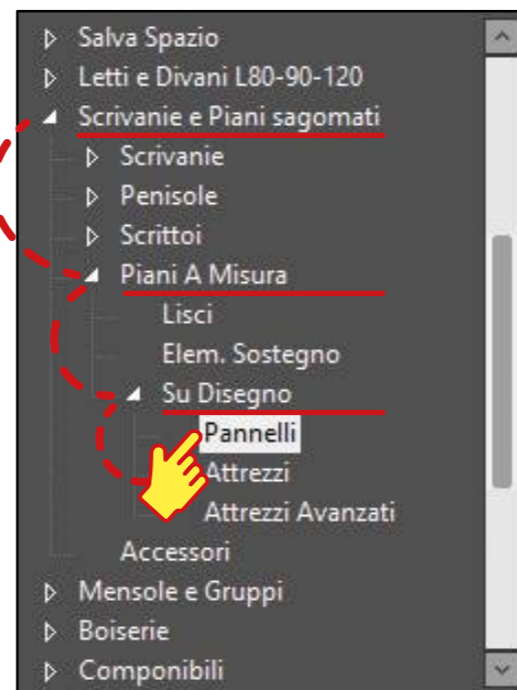

Components in **GROUP 2 colors**

Shaped components available with contrasting edging.

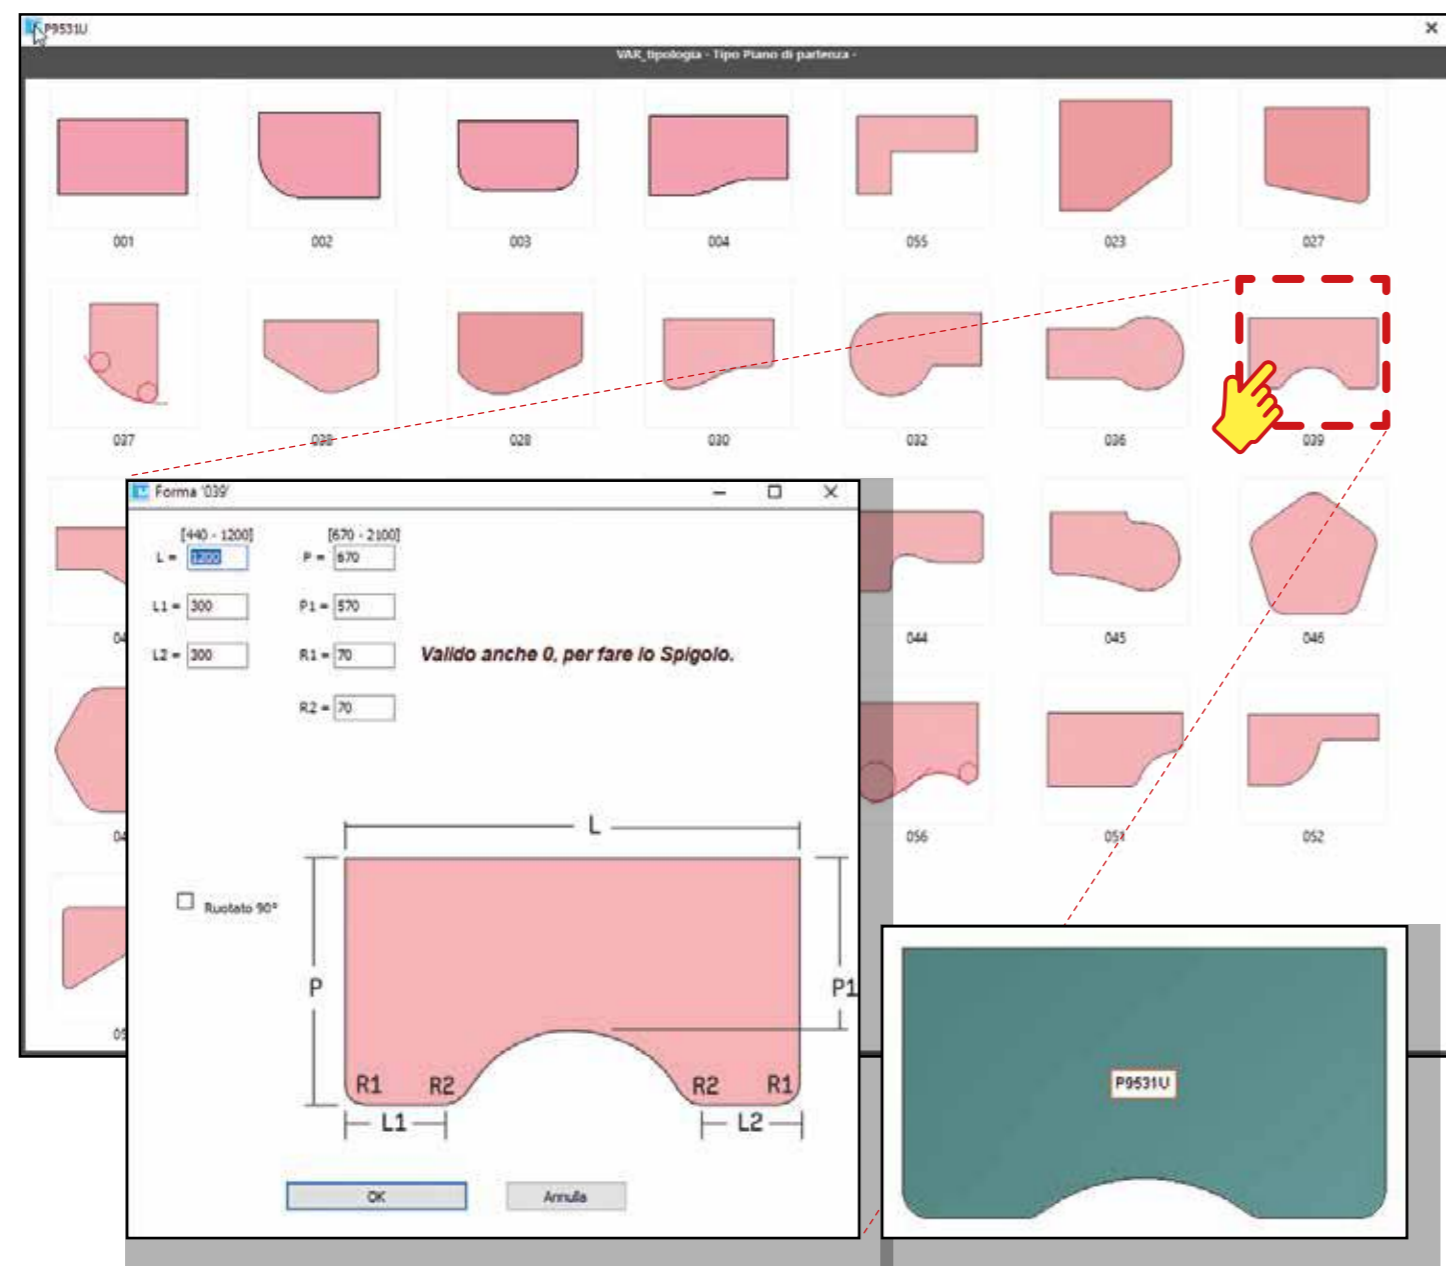

**Solid natural ash wood**  
Wood is a natural product and, as such, is subject to variations in color and grain. Differences in grain or color therefore do not constitute grounds for dispute.

# Designed shaped panels Th 2.5

- Customer designed shaped panels are produced with the technical department's approval.
- Our graphics program, "METRON 4", slides you step-by-step in creating the shaped top (see point 1) and automatically calculates the price of the panel (see point 4).
- Tops with sizes and curves are created based on the limits indicated below (see points 2 and 3).
- One side of the panel is always straight (see point 2).

## 1) Order example METRON 4.

## 2) The panel area will never exceed 2.52 square meters (2.10 x 1.20).

Examples:

Example:  
 1.60 m x  
 1.20 m =  
 1.92 m<sup>2</sup>

Example:  
 2.10 m x  
 1.10 m =  
 2.31 m<sup>2</sup>

Example:  
 2.10 m x  
 1.70 m =  
 3.57 m<sup>2</sup>

**NO**

## 3) Minimum radius of curvature.

Examples:

If you cut the worktop the sides will be without edge

Holes of any diameter or round shapes are NOT provided.

## 4) Calculating the price of shaped panels to the customer's design.

The price of shaped panels to the customer's design is calculated per square metre, considering the amount of board needed to produce the custom panel.

Example:

m 1,10 x  
 m 1,10 =  
 m<sup>2</sup> 1,21 x

## \* LED SPOT LIGHT Ø 6,5

The colour tone of the LED strip is natural. We provide a power pack (with a surcharge) able to support from 1 to 6 spotlights. Spot lights are assembled with wiring in sight. The on/off switching of the shelves can be done in 2 different ways: By connecting the power supply unit to your home electrical system and using your own standard power switch; By ordering our wireless on/off switch from catalogue.

The minimum length of a shelf with LED spotlights is 60. Two holes are made for the spotlights. For longer shelves which require more spotlights, please specify the total number of spotlights. They must be spaced at equal distances except for the ones on the sides where the centre hole is positioned 15 cm from the edge (see diagram).

**+ 50,00 for power pack.**

**NOTE:** When ordering specify the type of shelf holder.

**Maximum recommended load (net of shelves):**

**12 kg** for each pair of INCH shelf holders.

**18 kg** for each pair of LENA shelf holders.

**30 kg** for each pair of INTEGRATED, GOLIA and SCACCO shelf holders.

N.B. for loads evenly distributed over the shelf. The distance between two shelf holders must not exceed 80 cm.

# PEPITA boiserie system

These are panels that can be used to create panelling compositions by combining multiple elements. Available in smooth version, with slats or with cubes.

The smooth panels Th 1.8 protrude from the wall by 2.6 cm after installation.

The slats H 3 are in solid natural ash wood.

The cubes in panel Th 1.8 can be in a different colour with respect to the smooth supporting panels.

**Hardware for wall mounting supplied.**

**Maximum recommended load:**  
10 kg for each cube.

Example of a composition PEPITA:

- 1 Left panel W 60 with cube
- 2 Right panel W 90 with cube
- 3 Smooth panel W 90
- 4 Smooth panel W 60
- 5 Panel with laths W 60
- 6 Tray
- 7 Left panel W 90 with cubes

■ Components in **GROUP 2 colors**  
● **Solid natural ash wood**  
 Wood is a natural product and as such is subject to variations in color and grain. Differences in grain or color therefore do not constitute grounds for dispute.

**Maximum recommended load:**  
**10 kg for each cube.**

# DARSENA boiserie system

## When placing the order:

- We recommend using our graphic software.
- A graphical representation and/or drawing of the complete composition must be provided.
- Inner panels Th 1.8 must always be combined with outer panels Th 2.5.
- The outer TV panel, if not used singularly, can only be placed alongside outer panels Th 2.5.
- The outer panels Th 2.5 + Th 1.8 (start/end) H 129.4/129.8 must be positioned at the start or end of the composition in combination with suspended base units complete with top Th 1.4 or 1.8.
- It is not possible to place 2 or more panels with shelves side by side (either inner or outer).
- Panelling elements have a clearance of 0.8 cm from the wall.

- 1 External panel Th 2.5 + Th 1.8 (initial) with protruding panel shelves Th 2.5
- 2 External panel Th 2.5
- 3 Internal panel Th 1.8
- 4 External panel Th 2.5 with Th 0.25 metal shelves
- 5 External panel Th 2.5 + Th 1.8 with metal shelf Th 0.25
- 6 External panel Th 2.5 with panel shelves Th 2.5
- 7 External TV stand panel Th 1.8
- 8 Internal panel Th 1.8 with panel shelves Th 2.5
- 9 External panel Th 2.5 + Th 1.8 (terminal)

\* Specify left or right (left image)

- Inner panels Th 1.8 must always be combined with outer panels Th 2.5.
- The outer panels Th 2.5 + Th 1.8 (start/end) Ht 129.4/129.8 must be positioned at the start or end of the composition in combination with suspended modular elements complete with top Th 1.4 or 1.8.
- The outer TV panel can be used singularly or placed alongside outer panels Th 2.5.

## Remote control

Code PV00.60M

The remote control is a wireless switch (single channel or multi-channel) using which it is possible to turn on, off, and regulate the brightness of the lamps connected to the receiving power adapter.  
1 remote control must be ordered for each power adapter.

## Bluetooth application board

Code PV00.59Q

The remote control module activates the Bluetooth function that allows you to manage the lights from your smartphone thanks to the dedicated App.  
1 board must be ordered for each power adapter.

# Side panel hole layout

For proper customisation of the side panels, the internal equipment of the wardrobe must be graphically represented using our graphic software.

## Customised hole layout for side panel

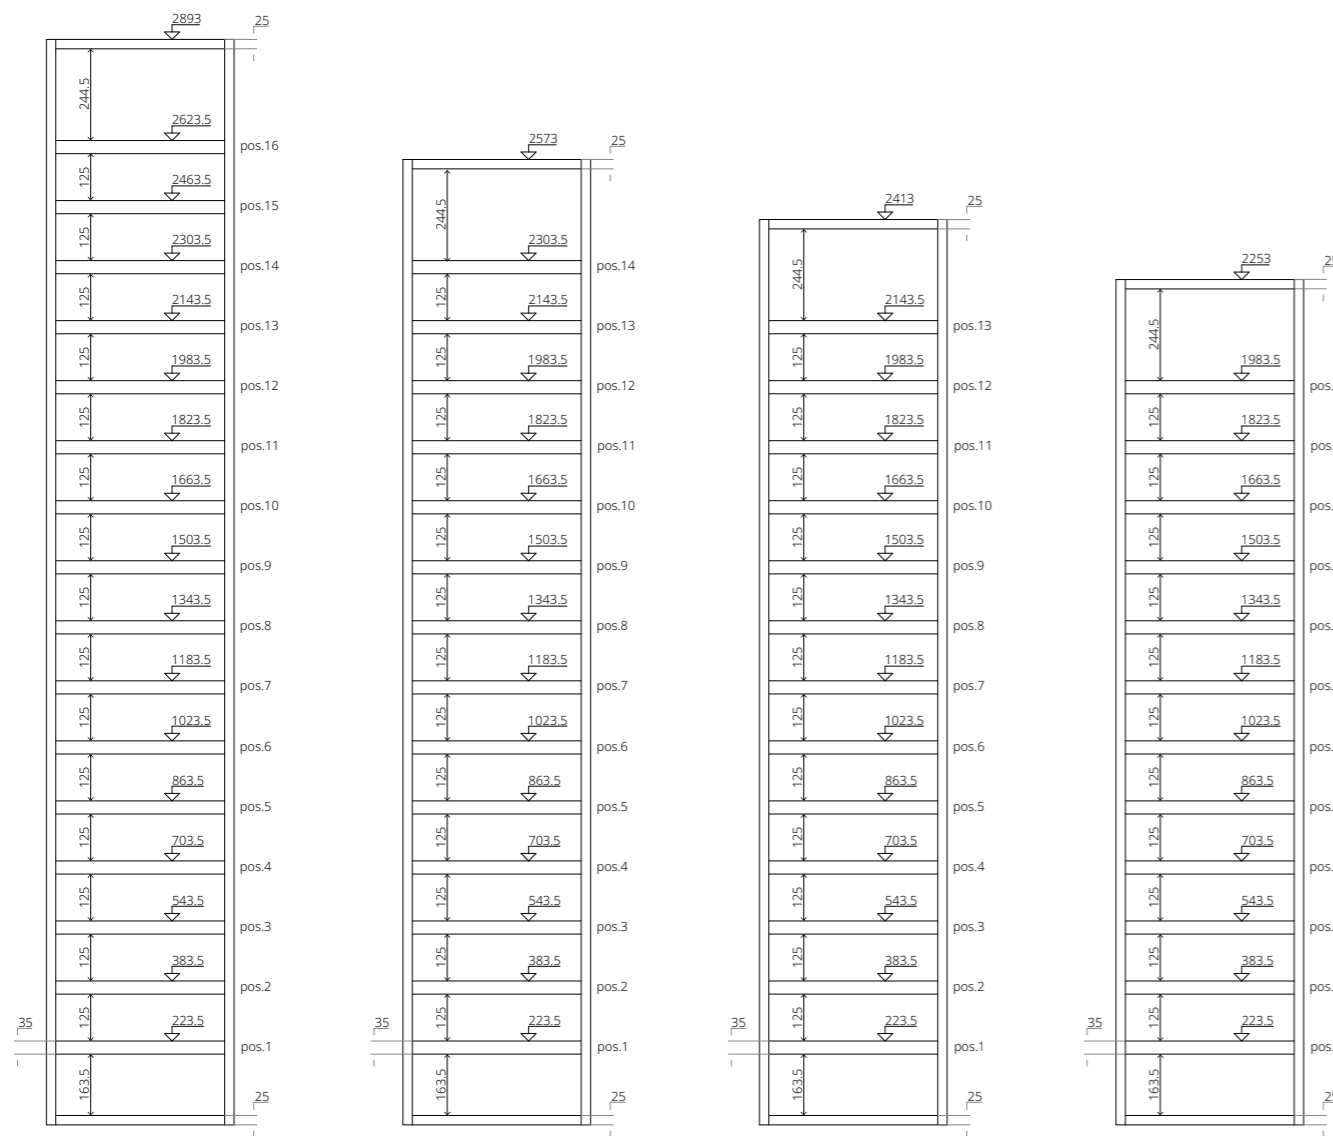

## Complete hole layout for side panel

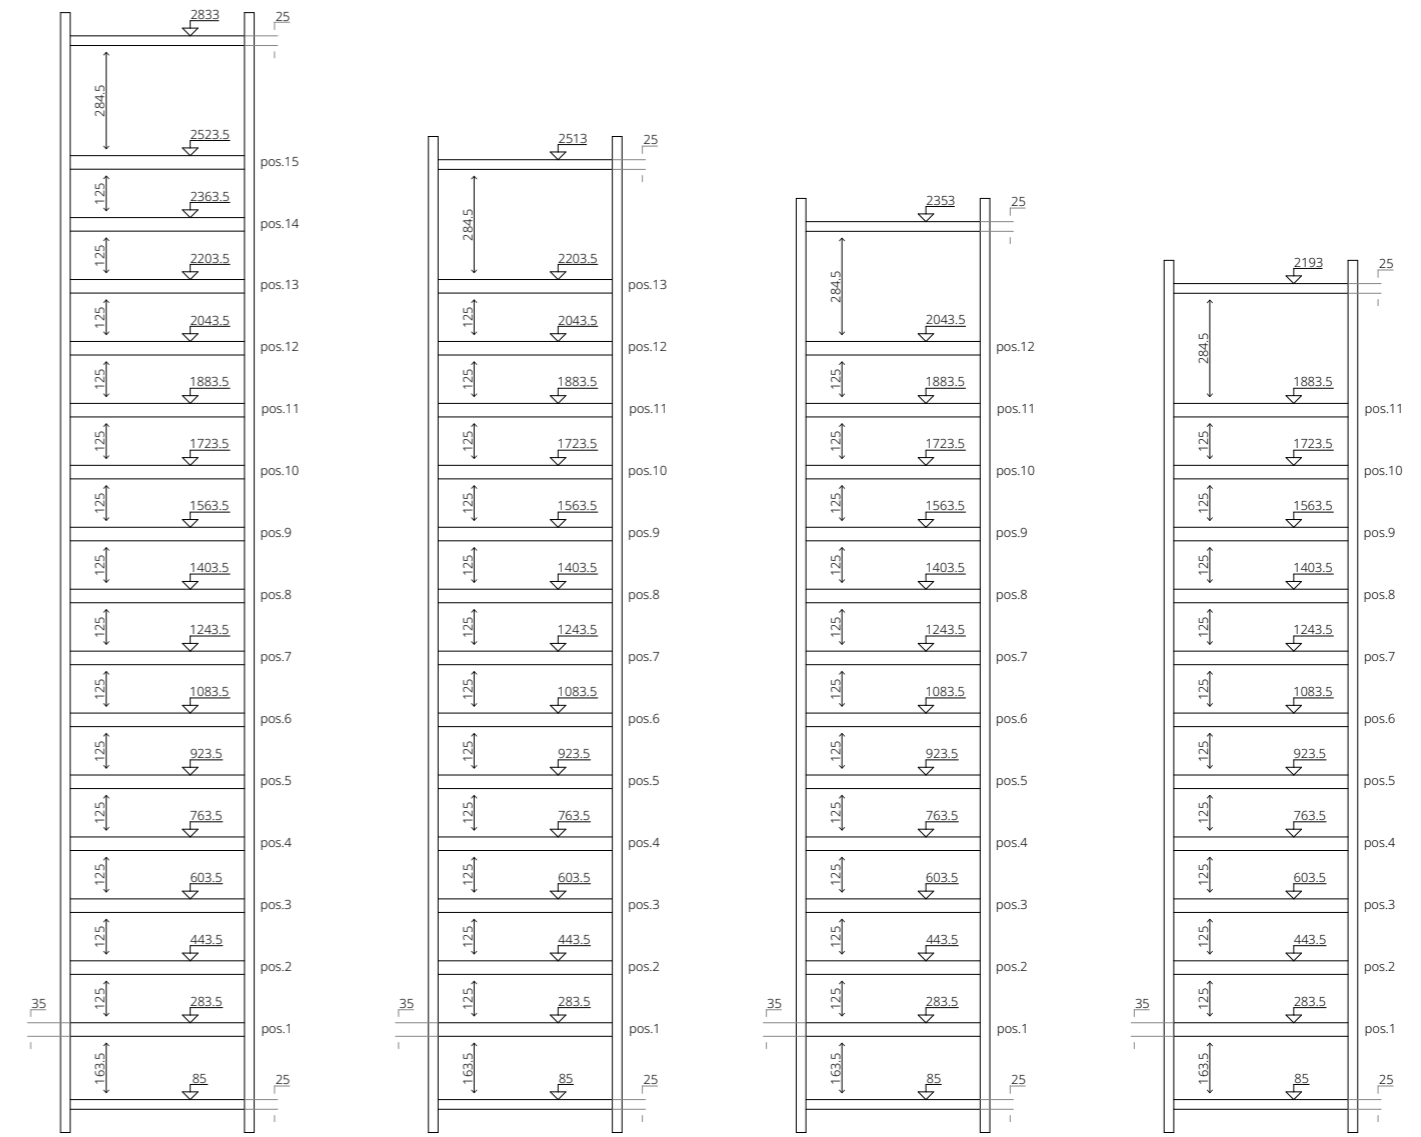

## Swing wardrobe hole layout

Front view (the measurements refer to the height of the side panel, excluding the foot).

## Sliding wardrobe hole layout

Front view (the measurements refer to the height of the side panel, excluding the foot).

## STYLE fronts Th 1.8

Doors W 30, 45, 50 and 60

- Each door has 4 adjustable hinges with soft closure; corner wardrobes have 165° hinges.
- In units W 90 with doors W 30 + W 60 the direction is determined by the position of the door W 60; only one handle is provided and it is positioned on the L 60 door.
- Lower heights and widths are permitted.

- ✳ Finishing with textured effect
- ✳ UV glossy finishing

## CONCRETA fronts Th 2.5

Doors W 45, 50 and 60

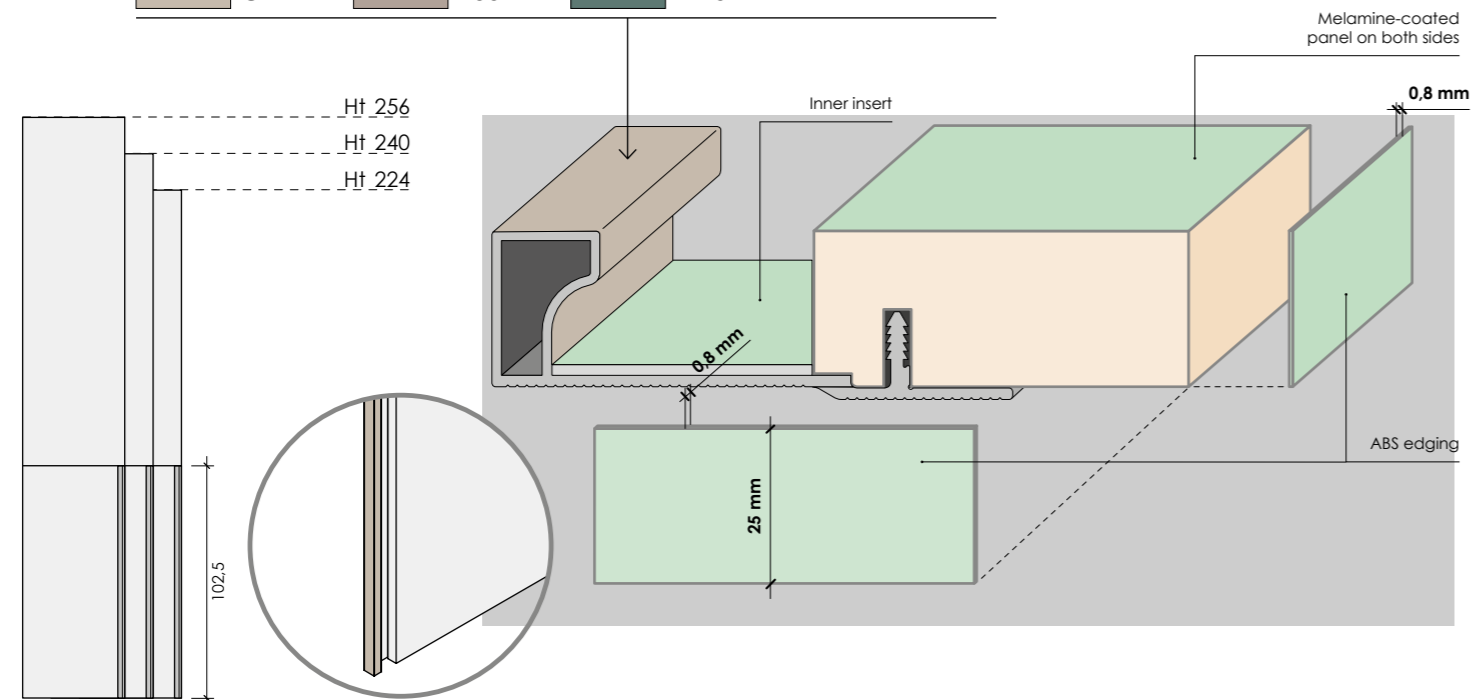

- The doors of the over-door wardrobe, of the overhead module, with niche, with console and bottom doors of the TV mount module are without handles and open with a 16 mm protrusion on the vault or on the shelf.
- The upper doors of the seasonal wardrobes can be equipped with a push pull opening. Doors Ht 48/64/80/96 are equipped with 2 hinges. Doors Ht 128 with 3 hinges. Doors Ht 160/192/224 and doors W 45 Ht 240/256 with 4 hinges. Doors Ht 240/256 W 50 and W 60 and doors Ht 288 W 45/50/60 with 6 hinges; corner wardrobes have 165° hinges.
- Lower heights and widths are permitted.

# CUTTING fronts Th 2.5

## Groove handle colours

Doors W 45, 50 and 60

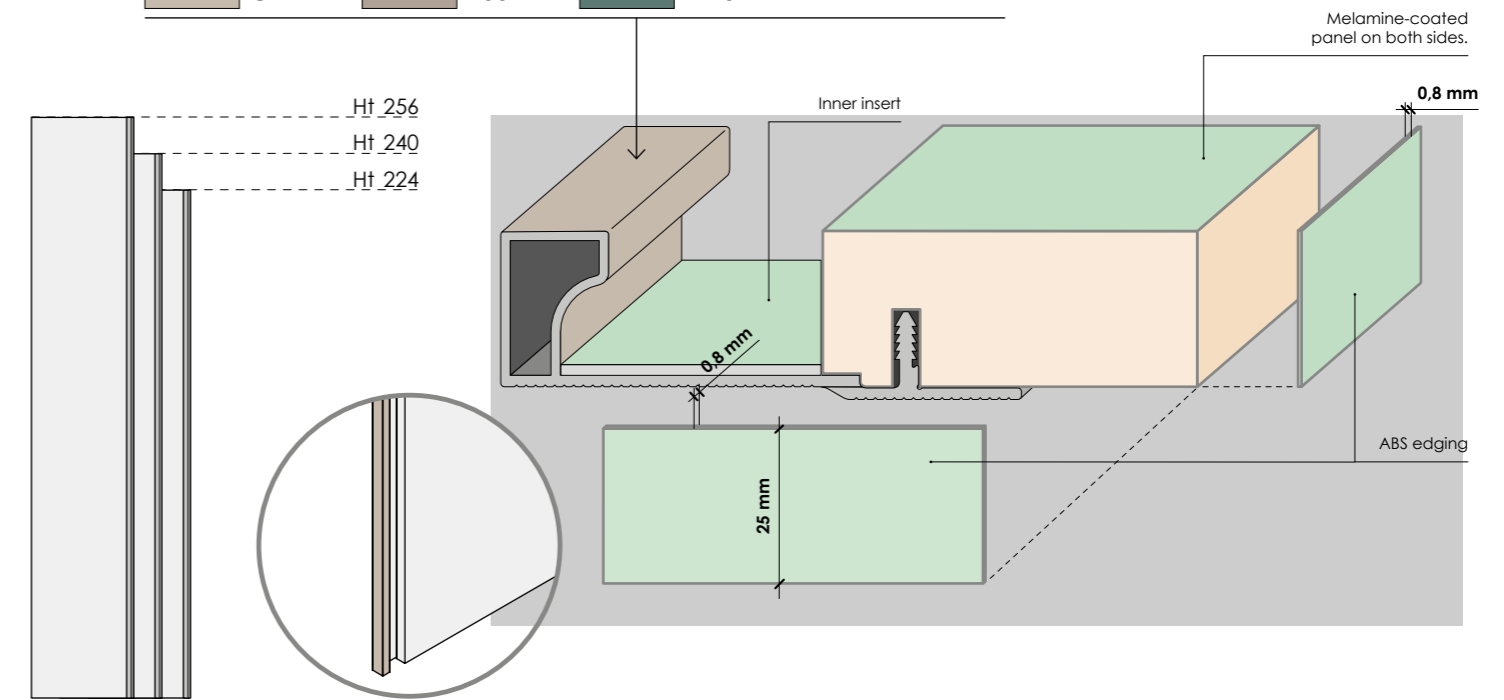

- Handle grip in matt lacquered aluminium with matching interior; choice of inner insert in all front colors. If there are two doors, the handle is always positioned on the right-hand door (the left-hand door always consists of a lower and upper square but without handle).
- Each door has 4 adjustable hinges with soft closure, except for doors W 50 / W 60 Ht 240 and Ht 256 which have 6; corner wardrobes have 165° hinges.
- Size reductions are not permitted.
- The individual squares can be customised.

# CUTTING PLUS fronts Th 2.5

## Groove handle colours

Doors W 45, 50 and 60

- Handle grip in matt lacquered aluminium with matching interior; choice of inner insert in all front colors. If there are two doors, the handle is always positioned on the right-hand door (the left door is smooth without handle).
- Each door has 4 adjustable hinges with soft closure, except for doors W 50 / W 60 Ht 240 and Ht 256 which have 6; corner wardrobes have 165° hinges.
- Lower heights are permitted.

☆ Finishing with textured effect

# WINDOW fronts Th 2.1

- Fitted with decelerated hinges.
- Size reductions are not permitted.

## STYLE sliding doors Th 1.8

STYLE melamine-coated doors/Mirror doors W 90 and 100

- The Th 0.4 mirror is applied to a Th 1.4 white melamine panel.
- Size reductions are not permitted.

### Long side handle

In anodised aluminium or coated, with integrated adjustment rods and dust protection cover.

Colours available

✳ Finishing with textured effect

## MOSAICO sliding doors Th 1.8

MOSAICO melamine-coated doors/Mirror doors W 90, 100 and 135

- The Th 0.4 mirror is applied to a Th 1.4 white melamine panel.
- Size reductions are not permitted.

### Long side handle

Joining profile and long side handles in anodised aluminium or melamine-faced; with integrated adjustment rods and dust protection cover.

Colours available

## FREEDOM sliding doors Th 1.8

FREEDOM melamine-coated doors W 150

- The positioning of the W 90 / W 60 bands can be established during assembly.
- Size reductions are not permitted.
- The individual bands can be customised.

### Long side handle

In matt lacquered aluminium, with integrated adjustment rods and dust protection cover.

Colours available

✳ Finishing with textured effect

## CONCRETA sliding doors Th 2.5

CONCRETA melamine-coated doors W 90 and 100

- The doors H 288 have a metallic profile Th 4 mm, epoxy-powder painted in Carbon grey (CG8X) finish.
- In the doors H 288 the individual squares can be customised.
- Integrated adjustment rods and dust protection cover.
- Lower heights are permitted.

### Available handles

## RAIL sliding doors Th 2.5/1.8

RAIL melamine-coated doors W 90, 100 and 135

- Also available with (optional) horizontal external led lighting (always switched on); power adapter included. For remote control or Bluetooth application vedi pag. 510.
- Size reductions are not permitted.
- The individual squares can be customised.

### Long side handle

Joining profile and long side handles in matt lacquered aluminium, with integrated adjustment rods and dust protection cover.

Colours available

✳ Finishing with textured effect

## CUTTING sliding doors Th 2.5

CUTTING melamine-coated doors W 90, 100 and 135

- Integrated adjustment rods and dust protection cover.
- Size reductions are not permitted.
- The individual squares can be customised.

### Groove handle

Handle grip in matt lacquered aluminium with matching interior; choice of inner insert in all front colors.

Colours available

# Custom cuts

35,00 cost of cutting each component of the element.  
113,00 cost for CONCRETA sliding door cut.

Cuts are carried out only on request with explanatory drawing.  
It is not possible to create two-sided elements.

For customised cuts of units that are not specified, consult the technical notes inserted in the various sections.

## Reduced Width

**Example with a hinged door wardrobe:**  
To reduce the width of a one-door wardrobe, 5 components have to be cut (bottom panel, top, shelf, back panel and door); therefore, the cost of this process is:

## Reduced Height

**Cuts are always made at the top**

**Example with a hinged door wardrobe:**  
To reduce the height of a one-door wardrobe, 3 components have to be cut (back, side and door); therefore the cost of this operation is:

**Example with sliding door wardrobe:**  
To reduce the height of a 2 doors wardrobe, 7 components have to be cut (3 sides, 2 backs and 2 doors); therefore the cost of this operation is:

## Reduced Depth

**Must be fixed to the wall**

**Example with a hinged door wardrobe:**  
To reduce the depth of a wardrobe, 4 components have to be cut (bottom panel, top panel, shelf and side panel); therefore the cost for processing amounts to:

**Example with sliding door wardrobe:**  
To reduce the depth of a 2 doors wardrobe, 9 components have to be cut (2 bottoms, 2 top panels, 2 shelves, and 3 sides); therefore, the cost of this process is:

## Reduction in the depth of a central element

**Example:**  
To reduce the depth of central module, 3 components (bottom, top and shelf) are cut; the cost of this modification is:

## Reduction in the depth of an end element

**Example:**  
To reduce the depth of an end module in the wardrobe, 4 components (bottom, top, shelf and side) are cut; the cost of this modification is:

In order to use these elements, our graphic software must be used, equipping the accessory inside the relative carcass.

# Power adapters and switches

## Power adapters with motion sensors

### 24 V power kit with PIR sensor

Kit consisting of power adapter and motion sensor, for top/shelf with led profile; includes 2 linear metres of cable with Europe plug. Each power adapter has 9 outputs to connect from 1 to 9 led profiles, to order the correct code calculate the total watt consumption for each compartment. **1 kit must be ordered for each wardrobe compartment.**

The motion sensor works as a switch. The connected lamps are turned on and off when changes are detected in the temperature combined with movement within its range of action.

15 Watt

30 Watt

60 Watt

100 Watt

Code	PV00.62Z	PV00.63F	PV00.64N	PV00.61T		

Example with watt consumption and number of power adapters to order.

### Wardrobe 3 compartments W 100

2 compartments W 100 with led on top (9 watt) and led on shelf (9 watt). Total 18 watt per compartment.  
1 compartment W 100 with led on top (9 watt x 4) and led on shelves (9 watt x 4). Total 45 watt.

Order 2 x 30 watt power adapter with sensor kits Code PV00.63F and 1 x 60 watt power adapter with sensor kit Code PV00.64N.

**Metron allows automatic calculation of the grounding for the power adapter or switches on the single wardrobe composition.**

## Power adapter and Wireless switches

### 24 V power adapter with cable

Power adapters for direct connection to the mains (socket controlled by a bipolar switch) for top/shelf with led profile; includes 2 linear metres of cable with Europe plug. Each power adapter has 6 outputs to connect from 1 to 6 led profiles; for the number of power adapters to order, calculate the total watt consumption.

30 Watt

60 Watt

### Remote control

The remote control is a wireless switch (single channel or multi-channel) using which it is possible to turn on, off, and regulate the brightness of the led profiles connected to the receiving power adapter.

**1 remote control must be ordered for each power adapter.**

### Bluetooth application board

The remote control module activates the Bluetooth function that allows you to manage the lights from your smartphone thanks to the dedicated App.

**1 board must be ordered for each power adapter.**

Code	PV20.00L	PV20.01S	PV00.60M	PV00.59Q

Example with watt consumption and number of power adapters to order.

### Wardrobe 3 compartments W 100

2 compartments W 100 with led on top (9 watt) and led on shelf (9 watt).  
1 compartment W 100 with led on top (9 watt x 4) and led on shelves (9 watt x 4). Total watt 81.

Order 1 x 30 watt power adapter Code PV20.00L to connect 3 led lamps (27 watt) and 1 x 60 watt power adapter Code PV20.01S to connect 6 led lamps (54 watt).

**Metron allows automatic calculation of the grounding for the power adapter or switches on the single wardrobe composition.**

Modular wardrobes  
Hinged doors

# Wardrobes - technical information

## Components:

- 1 Top panel Th 2.5
- 2 Bottom panel Th 2.5
- 3 Side panels Th 2.5
- 4 Back panel Th 0.8 - Fitting into shaped connection.
- 5 PLUS clothes hanging bar in aluminum.
- 6 Movable shelf Th 3.5
- 7 Adjustable feet
- 8 Central side aluminium frame Th 2.5 (optional)  
Carbon grey (CG8X) finish. **Exclusive for H 257,8**
- 9 Inner side panel Th 2.5
- 10 Central side panel Th 2.5

## Dimensions:

<b>W</b>	45 - 50 - 60 - 90 - 100 - 120
<b>Dpt</b>	61,5    61,8    62,2
	STYLE    WINDOW    CONCRETA CUTTING CUTTIN PLUS
<b>Ht</b>	225,8 - 241,8 - 257,8 - 289,8

- The side panels are flush with the top and bottom.
- Tops are not finished.
- Top panels, bottom panels, movable shelves, back panels and central side panels in Leather grey (LG7H) finish.
- The modules must always be completed with by a final side and ordered from left to right.
- For assembly, at least an extra 4 cm in width is required (if the "kit for assembly in niche" Code PV00.58H is ordered, 2 cm are sufficient).

### IMPORTANT!

- Internal fittings supplied consist in: 1 clothes hanging bar in line with doors Ht 128 - 160 - 192; 2 clothes hanging bars and 1 movable shelf in line with doors Ht 224 - 256 - 288.
- For custom cuts consult the relevant chapter.

## Corner

- It must always be combined with another module.
- For assembly, at least an extra 4 cm in width is required (if the "kit for assembly in niche" Code PV00.58H is ordered, 2 cm are sufficient).

## Made-to-measure gap for corner module:

**114,00** surcharge for made-to-measure gap (compared to the list price of the element with universal gap).

Always start with the universal gap kit and set the gap size of the pillar.  
To add shelves, they must be indicated with a drawing inside the corner module.

- 140 mm : Minimum gap width
- 395 mm : Maximum gap width

## End element

- It must always be combined with another module.
- For assembly, at least an extra 4 cm in width is required (if the "kit for assembly in niche" Code PV00.58H is ordered, 2 cm are sufficient).

## Modular wardrobes with hinged doors

### Widths

## Over-door wardrobe - technical specifications

**Made-to-measure reducible over-door wardrobe, when placing the order indicate the height and width of the doorway.**

# Made-to-measure solutions for hinged doors

## 🕒 Pitched roof cut

Minimum finished door slant 50°

Pitched roof cut on all elements.

FRONT VIEW  
Example 1:

When ordering, you must:

- Place single modules (W 45/50/60) side by side for the desired length.
- Indicate the height of the LH wall (H1).
- Indicate the length (W) and the height of RH wall (H2).

Pitched roof cuts are made to measure only if requested with a detailed drawing.

POSSIBLE CUTS:

- Single wardrobe carcasses (W 45/50/60)
- ONE door at full-height

658 mm : Minimum wardrobe structure height  
2570 mm: Maximum wardrobe structure height

Pitched roof cut flanked by linear wardrobe.

FRONT VIEW  
Example 2:

When ordering, you must:

- Place single modules (W 45/50/60) side by side for the desired length.
- Indicate the height of the LH wall (H1).
- Indicate the height of the RH wall (H2).
- Indicate the length (W) of the linear part.

N.B. A joining door will be created which will be aligned with the doors of the straight wardrobe (Fig.1).

### CAUTIONS:

- The wardrobe must consist of standard modules W 45/50/60 with full-height door; it is possible to reduce the height and width with the relative rules in the "Custom cuts" chapter.
- The hinges must always be positioned on the highest side of the door.
- Doors, which are lower by 110 cm, on the handle side, will be supplied with push pull opening.
- A 3 cm technical tolerance is always allowed between the diagonal of the ceiling and the diagonal of the door cut.
- An additional width of 4 cm on the highest side of the composition for assembly.

## Corner for wardrobe joins with pitched roof cut and protruding doors

## 🕒 Door protruding in height

SIDE VIEW  
Example 1:

When ordering, you must:

- Place modules side by side for the desired length.
- Indicate the height of the wardrobe carcass (H1).
- Indicate the height of the door (H2).

Compositions can be created with protruding doors only if requested with detailed drawing.

POSSIBLE CUTS:

- ONE door at full height

658 mm : Minimum wardrobe structure height  
2578 mm: Maximum wardrobe structure height

SIDE VIEW  
Example 2:

When ordering, you must:

- Place modules side by side for the desired length.
- Indicate the minimum height of the wall (H1).
- Indicate the depth (Dpt) and the maximum height of the wall (H2).

### CAUTIONS:

- The wardrobe must be composed of modules with standard structures, possibly reduced in height, width and depth with the relevant rules in the "Custom cuts" chapter.
- The doors can protrude a max. of 40 cm compared to the carcass.
- Doors, which are lower by 110 cm, will be supplied with push pull opening.
- In the case of a sloping ceiling (see example 2), a technical tolerance of 3 cm between the ceiling and the protruding door is always considered.
- An additional width of 4 cm is required for assembly.

# Overhead wardrobes - technical information

Components:

- 1 Top panel Th 2.5
- 2 PLUS clothes hanging bar (Wall units Ht 127.6)
- 3 Back panel Th 0.8 - fitting into shaped connection.
- 4 Central side Th 2.5
- 5 Movable shelf Th 3.5
- 6 Side panels Th 2.5
- 7 Bottom panel Th 2.5
- 8 Iron frame H 6
- 9 Frame cover vault Th 1.8
- 10 Frame cover facing Th 1.8 - Ht 7.8
- 11 Under-overhead back panel Th 1.8

- Top panels, bottom panels, movable shelves, back panels and central side panels in Leather grey (LG7H) finish.
- For assembly, at least an extra 4 cm in width is required.
- In overhead wardrobes W 300 and wardrobes with console, the shelves are fixed to the side of the wardrobe from the inside with visible screws.
- The wardrobe with TV mount must always be between two wardrobes (one on the Right and one on the Left).
- The doors of the overhead module, niche, console and bottom doors of the TV stand module are without handles and open with a 16 mm protrusion on the vault or on the shelf.

### IMPORTANT!

- **Internal fittings supplied consist in:** 1 clothes hanging bar in line with doors Ht 128; 2 clothes hanging bars in line with doors Ht 224, 240 and 256;
- 1 movable shelf in line with doors Ht 80 and 96.
- **Size reductions in height are permitted.**

CUTTING      MOSAICO  
                    FREEDOM  
                    RAIL

**Ht** 225,8 - 241,8 - 257,8 - 289,8

- Tops are not finished.
- The wardrobes can be placed side by side.
- Top panels, bottom panels, movable shelves, back panels and central side panels in Leather grey (LG7H) finish.
- Fitted with a soft opening/closing system.
- For assembly, an extra 4 cm in width and 8 cm in height is required; for correct sliding in a niche, at least an extra 4 cm in height is required (if the "kit for assembly in niche" Code PV00.58H" is ordered, 2 cm in width are sufficient).

## IMPORTANT!

- The mirror Th 0.4 is applied on a white melamine-coated panel Th 1.4.
- **Internal fittings supplied for every niche:** 2 clothes hanging bars and 1 melamine-coated movable shelf.
- **For custom cuts consult the relevant chapter.**
- We recommend fixing them to the wall with the provided hardware; if the depth has been reduced, they must be anchored to the wall.

## Widths and opening diagram

When ordering two-door wardrobes, you must specify if the protruding door is L or R.  
The side panel next to the protruding door is 63.1/63.5 cm deep while the side panel next to the non-protruding door is 59.5 cm deep.

### Wireless switches

#### Remote control

The remote control is a wireless switch (single channel or multi-channel) using which it is possible to turn on, off, and regulate the brightness of the led profiles connected to the receiving power adapter.

#### Bluetooth application board

The remote control module activates the Bluetooth function that allows you to manage the lights from your smartphone thanks to the dedicated App.

## Walk-in wardrobes - technical information

Components:

- 1 Top panel Th 2.5
- 2 Back panel Th 2.5
- 3 Inner side panel Th 2.5
- 4 Central side panel Th 2.5 / lateral for end closets
- 5 PLUS clothes hanging bar in aluminum.
- 6 Movable shelf Th 3.5
- 7 Central side panel Th 2.5
- 8 Back panel Th 0.8 - Fitting into shaped connection.
- 9 Bottom panel Th 2.5
- 10 Adjustable feet

- Top panels, bottom panels, movable shelves, back panels, inner side panel and central side panels in Leather grey (LG7H) finish.
- It is possible to connect the closet to a wardrobe with sliding doors (an image and/or drawing of the composition must be send when placing the order).
- If the door is Th 2.5 or when the closet is flanked by a wardrobe with sliding doors, the central side panels are Th 3.5.
- The central closet must always be combined with two modules, the end closet with one module.
- For assembly, at least an extra 4 cm in width is required (if the "kit for assembly in niche" Code PV00.58H is ordered, 2 cm are sufficient).

### Made-to-measure gap

114,00€ Surcharge for made-to-measure gap (compared to the list price of the element with universal gap).

Always start with the universal gap kit and set the gap size of the pillar.  
To add shelves, they must be indicated with a drawing inside the walk-in wardrobes.

#### Walk-in wardrobe with 2 doors:

70 mm : Minimum gap width  
280 mm : Maximum gap width

#### Walk-in wardrobe with 1 door:

140 mm : Minimum gap width  
365 mm : Maximum gap width

## Components for wardrobe room - technical information

A walk-in composition is obtained by placing open modular modules next to each other (available in the following pages). These modules have the same functional, modular, and dimensional characteristics as those with swing doors and can accommodate all the accessories dedicated to them.  
For more information, see the technical information on wardrobes and walk-ins.

### Example of wardrobe room composition:

# Double beds with rear housing space

- The double beds with rear housing space must be positioned against the wall.
- The rear housing space is equipped with adjustable feet Hf 0.7; it must be secured to the headboard during installation using the supplied hardware.
- The top of the rear housing space can be optionally equipped with: Cable hole, Wireless charging, Dual USB socket for which specific holes are needed (see holes for integrated technology).
- The headboard of the bed can be optionally equipped with led lighting to be secured to the rear with special screws.

## Holes for built-in technology drilled by us on customer request

When placing the order for the bed, the rear housing space can be optionally equipped with integrated accessories (Cable hole, Wireless charging, Dual USB socket) for which specific holes need to be made on the top. One or more accessories can be selected. The methods used to make the holes are indicated at the side.

**Led lighting kit**  
Lamp in black coloured aluminium with front veil to reduce glare. K4000 natural light, right-hand side touch power-on, 24 V 240 led/metre, 20 Watt/metre, CE. Complete power kit and fastening screws.

Code **PK51.95K**

# Modular units and wall units - Technical information

## Floor/Support Modular units

Dimensions (not including top, base or feet):

**Dpt** 56,3-45-32,5

**W** 45-60-90

**Ht** 16-32-64-96-128-160-192

**W** 120-135-150-180 **Ht** 32 **Dpt** 45

## Suspended Modular units

Dimensions (not including top):

**Dpt** 45-32,5

**W** 45-60 **Ht** 32-64-96

**W** 90 **Ht** 32-64

**W** 120-135-150\*-180\* **Ht** 32

**W** 30 **Ht** 96-128 **Dpt** 45

\* Dpt 45 only

## Wall units

Dimensions (not including top):

**Dpt** 32,5

**W** 30 **Ht** 32-64-96-128

**W** 45-60 **Ht** 32-64-96

**W** 90 **Ht** 32-64

**W** 120 **Ht** 32

- Backs, shelves, top and bottom panels (the latter only in floor-standing modular units) in carcass colours.
- The side panels remain aligned with the top and bottom panel and have customized perforation.
- The hardware is placed in a personalized fashion according to the position of the components.
- The suspended Modular units and Wall units come with adjustable brackets with an antirelease device for wall fixing. The hardware in the wall units is invisible.
- You must complete every Floor/Support Modular units composition with top and bottom parts or with top and feet. A composition of multiple units can share same top and bottom. The use of the top is also recommended in the suspended Modular units while in the Wall units it is not mandatory.
- The modular elements and wall units W 120-135-150 consist of a single carcass with central divider Th 2.5, the deep drawers have a double interior with single front. The modular elements and wall units W 180 consist of 2 carcasses W 90 with single front.
- All Ht 16 - 32 - 64 elements, are provided already assembled (Ht 96 only Suspended modular units and Wall units).
- They comply with the European standard 14749 "Safety requirements for storage furniture for domestic use".

## IMPORTANT!

- The doors are fitted with decelerated hinges, with the exception of the folding doors which are equipped with concealed hinges.
- The ONE fronts (swing, pull-up, pull-down doors, drawers and deep drawers) can be equipped with push-pull opening. Selecting a "push-pull" handle will determine the need for "Quadro" type push-pull runners on the drawers.
- The drawers and big drawer CLUB and the big drawer W 120, 135, 150 and 180, are always fitted with height-adjustable soft-close "Quadro" metal slides with interior CHARM finish.
- **Internal fittings supplied with Modular units Dpt 56.3 consist in:** 1 clothes hanging bar in line with doors Ht 96 - 128 - 160 - 192; melamine-coated movable shelf every 32 cm in line with open compartments and where indicated with the dotted line.
- **Internal fittings supplied with Modular units Dpt 45, 32.5 and with Wall units consist in:** melamine-coated movable shelf every 32 cm.
- **For custom cuts consult the relevant chapter.**
- Upon request, the doors can be supplied without a handle and without handle holes (Not on CLUB and WINDOW).
- The Modular units and Wall units with pairs of CLUB doors are provided with only one handle. In elements with doors W 30 + W 60 the handle is placed on the W 60 door. Upon customer's request the CLUB handle can be mounted on both doors.
- In units W 90 with doors W 30 + W 60 the direction is determined by the position of the door W 60.

## Components:

- Top Th 1.4, 1.8, 2.5 or 5.5** (Th 5.5 only Dpt 45.6).
- Top panel Th 1.8** - With eccentric pin system
- Fibre back panel Th 0.3** - Fitting into shaped connection.
- Fixing hardware for suspension**
- Side panels Th 1.8** - With prefitted hardware.
- BASIC clothes hanging bar** in chromed metal **PLUS clothes hanging bar (optional)** in aluminium. (only for Dpt 56.3)
- Movable shelf Th 2.5** - On runner.
- Dividing movable shelf Th 2.5** - With sliding support. (only for Dpt 56.3)
- Metal drawer runners**
- Bottom panel Th 1.8** - With eccentric pin system  
The bottom panel can be fitted with:  
• ALFA-16 adjustable feet Ht 1.6  
• ALFA-25 adjustable feet Ht 2.5  
• DELTA adjustable feet Ht 11  
• NUME adjustable feet Ht 11  
• EPSILON adjustable feet Ht 15.5  
• TWIG adjustable feet Ht 16
- Bottom panel Th 1.8** - With eccentric pin system
- Base Ht 3 with 4 pads Ht 0.5**  
The base Th 2.5 can be fitted with:  
• DELTA adjustable feet Ht 11  
• NUME adjustable feet Ht 11  
• EPSILON adjustable feet Ht 15.5  
• TWIG adjustable feet Ht 16
- Base Ht 6.2 with 4 adjustable feet Ht 0.7** (Dpt 45.6 only).

## MODULAR COMPOSITION EXAMPLES

Example of composition with **Floor Modular units**

Example of composition with **Support Modular units**

Example of composition with **Suspended Modular units**

Example of composition with **Wall units**

- A** Top Th 1.4 / 1.8 / 2.5 / 5.5 (Th 5.5 only Dpt 45.6).
- B** Floor/support modular unit.
- C** Suspended modular unit.
- D** Wall unit.

- E Options:**
  - 1) ALFA-16, ALFA-25, DELTA, NUME, EPSILON and TWIG adjustable feet (without Base).
  - 2) Base Th 2.5 (With four pads H 0.5 plus the DELTA or NUME + one GAMMA-11 central feet, or EPSILON or TWIG + one GAMMA-15.5 central feet if required).
  - 3) Base Ht 6.2 (With four adjustable feet H 0.7) (Dpt 45.6 only).

**Example A:** Possible combinations of structures with the same depth. In the example, only tops to complete the composition are used.

**Example B:** Possible combinations of structures with the same depth. In the example, 1 top for completion and 2 intermediate tops between stacked structures are used.

**Example C:** Possible combinations of structures with the same depth. If, as in this example, only 1 intermediate top is used, there will be a difference in height between the L and R tall units equal to the thickness of the top. The solution is to use 2 intermediate tops, or none at all.

**Example D:** Possible combinations of structures with different depths. In the example, note the use of elements Dpt 56.3 in the lower part and of elements Dpt 45 and 32.5 in the upper part. It is best to use elements WITHOUT BOTTOM PANEL in the upper part and an intermediate top on top of the elements Dpt 56.3.

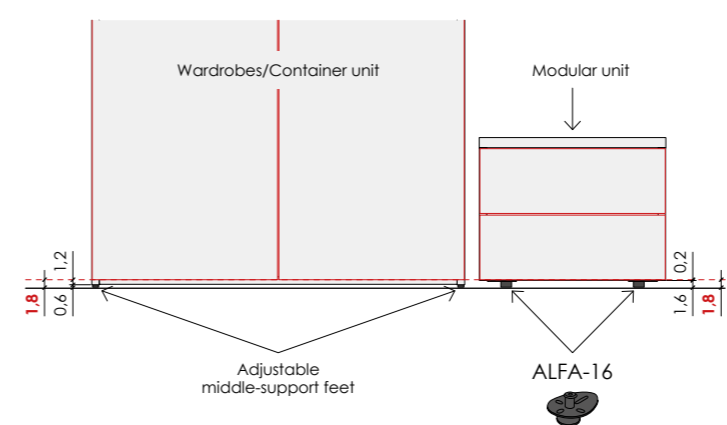

**Example E:** Possible combinations of structures with different heights. This composition is NOT FEASIBLE because there is a final difference in height between the R and L tall units, equal to the thickness of the intermediate top used above the elements Dpt 56.3.

**Example F:** Possible combinations of structures with the same height and different depths. In this example, note the use of elements with bottom panel. 2 with Dpt 56.3 at the ends and 2 with Dpt 32.5 in the middle. 2 bases Dpt 56.3 are used for the end elements and 1 base Dpt 32.5 for the middle elements. A single top Dpt 56.3 can be used.

## MODULAR UNITS + WARDROBES/CONTAINER UNITS

In the event that a Modular unit is placed side by side with a Wardrobe or a Container unit, it is recommended to use the Modular unit resting on the ALFA-16 foot in order to obtain the alignment of the fronts.

## INTERNAL LIGHTING

The lighting consists of: moveable melamine-faced shelves fitted with a led strip (60 LEDs per metre) positioned along the entire length of the shelf back, which lights both the lower and upper compartments by reflecting the light on the back panel, or by using led spotlights (this type of lighting is recommended in the cornice, cables are not concealed). A power supply unit is supplied (with a surcharge) for the shelves and spotlights that can power from 1 to 6 shelves 45/60-cm wide or 1 to 4 shelves, 90-cm wide. The type of lighting is natural. It can be switched on in 2 ways: by plugging it in and using the wall switch or by ordering a wireless switch from the price list.

# OPTIONAL for modular units and wall units

## A Extra colors for Top panel and Bottom panel (Suspended modulars units and Wall units)

In addition to the standard CARCASE colors, these components are all available in the GROUP 2 colors with surcharge (see table).

- **When placing the order:** indicate the colour in the TOP/BOTTOM variant in Metron 4; all top panels and bottom panels will automatically be delivered in that colour.
- **N.B.** In the ROUND desk, the color chosen for the TOP/BOTTOM will also determine the finish of the shelf.

Top panel Bottom panel	Surcharge for Dpt 45	Surcharge for Dpt 32.5
	(CARCASE colors excluded)

W 120		
W 135		
W 150		
W 180		
ROUND desk W 90		

## B Extra colors for Side panels

In addition to the standard CARCASE colors, the side panels are available in all the GROUP 2 colors with surcharge (see table).

- **When placing the order:** indicate the colour in the COLOURED FINISHES variant in Metron 4; all side panels will automatically be delivered in that colour (if specified in the modular units Ht 128 - 160 - 192, 1, 2 or more side panels can be coloured as preferred).
- **N.B.** The surcharge is applied to each single side panel, except for the Modular units Ht 16 - 32 - 64 - 96, where the choice of colour refers to both side panels of the element.

Side panel	Surcharge for pair side panels Dpt 56.3 - 45	Surcharge for pair side panels Dpt 32.5
	(CARCASE colors excluded)

## C PLUS clothes-hanging bar

On request the Modular units Dpt 56.3 (Ht 96 - 128 - 160 - 192) can be equipped with PLUS clothes-hanging bars with surcharge (see table). The PLUS clothes-hanging bar is in aluminium Ø 2.8, available in the Alluminio (AL1A) and Grigio titanio (GZ8T) colors.

- **When placing the order:** indicate PLUS clothes-hanging bar in the BAR TYPE variant and the colour in the BAR COLOUR variant in Metron 4; all bars will automatically be delivered in the same type and same colour.

Clothes-hanging bars	Surcharge for single element
W 45	
W 60	
W 90	

## D Drawers and big drawers with soft-close

On request drawers and big drawers in the "standard" version can be equipped with soft-close mechanisms, with surcharge (see table). Alternatively, drawers and big drawers can be ordered in the CHARM version, with surcharge (see table), equipped with soft-close or push pull (not on CLUB drawers) height-adjustable "Quadro" type runners with prestigious internal finish.

- **When placing the order:** indicate the type of runners in the RUNNER TYPE variant in Metron 4.
- **N.B.** the CLUB drawers and big drawers and the big drawers W 120 - 135 - 150 - 180 are with soft-close "Quadro" type runners and are supplied standard in the CHARM version (without surcharge).

Slow closing	Surcharge for single element
Drawers W 45 - 60 - 90	
Big drawers W 45 - 60 - 90	
CHARM Drawers/Big drawers with soft-close "Quadro" type runners W 45 - 60 - 90

# Adjustable feet for modular units

## Feet use: without Base

One pack of 4 feet for fixing underneath each element.

\* Elements W 120, 135 and 150 have an extra central foot. In the case of high feet, the central GAMMA is used.

## Feet use: with Base

One pack of 4 feet for fixing at the ends plus one GAMMA central feet for placing at each joint between units are always required.

# ROUND desk Ht 72 - Dpt 45.6

## Swivel top and side Th 5.5

Modular element W 90 complete with ALFA-25 feet.

Custom cuts are not possible.

The swivel top can support a max load of 30 Kg, evenly distributed.

	Wireless switch For led lighting		
			
Code	PL86.18U		

#### INTERNAL LIGHTING

The lighting consists of: moveable melamine-faced shelves fitted with a led strip (60 LEDs per metre) positioned along the entire length of the shelf back, which lights both the lower and upper compartments by reflecting the light on the back panel. A power supply unit is supplied (with a surcharge) for the shelves that can power from 1 to 6 shelves 45/60-cm wide or 1 to 4 shelves, 90-cm wide. The type of lighting is natural. It can be switched on in 2 ways: by plugging it in and using the wall switch or by ordering a wireless switch from the price list.

# Continuous headboards

# MUSHY continuous headboard

- The MUSHY continuous headboard is made up of 3 panels placed side by side and fixed to each other using dedicated hardware, and a rear housing space inserted between these and the wall, all equipped with adjustable feet H 0.7.
- The Top of the rear housing space can be optionally equipped with: Cable hole, Wireless charging, Dual USB socket for which specific holes are needed (see holes for integrated technology) and led lighting to be applied with special screws.

## Holes for built-in technology drilled by us on customer request

The rear housing space can be optionally equipped with integrated accessories (Cable hole, Wireless charging, Dual USB socket) for which specific holes need to be made on the top. One or more accessories can be selected. Following are the methods used to make the holes.

In metal + 15,00

In ABS + 9,00

# PODIO desks and shelves

- We recommend positioning the desk top at a maximum height of 77 cm from the floor.
- Adjustable support brackets for wall fixing are included.
- Maximum load recommended: 60 Kg.
- Element can not be modified.

On request, the top can be fitted with the following built-in technology:

The holes required will be drilled in fixed positions.  
For details, see the chapter "Holes for built-in technology".

# Home office - technical information

## Modular units Dpt 45

- Fitted with ALFA-16 adjustable feet H 1.6.
- They are units that can stand on the floor or on top of others units.
- Every unit is provided with 2 side panels perfectly aligned with top finishing insert and bottom parts.
- You must complete every composition with top. A composition of multiple units can share same top (W 360 max).
- The hardware is placed in a personalized fashion according to the position of the components.
- The sides have a continuous line of holes at a distance of 32 mm to allow the insertion of large document files.

Dimensions (not including top and feet):

**W** 45 - 60 - 90  
**Dpt** 45  
**Ht** 96 - 192

## IMPORTANT!

- The doors are fitted with decelerated hinges.
- The ONE fronts (swing, pull-up, pull-down doors, drawers and deep drawers) can be equipped with push-pull opening. Selecting a "push pull" handle will determine the need for "Quadro" type push pull runners on the drawers.
- The drawers and big drawer CLUB are always fitted with height-adjustable soft-close "Quadro" metal slides with interior CHARM finish.
- **Internal fittings supplied consist in:** Melamine-faced movable shelves as illustrated.
- **For custom cuts consult the relevant chapter.**
- In units W 90 with doors W 30 + W 60 the direction is determined by the position of the door W 60.
- Upon request, the doors can be supplied without a handle and without handle holes (not on CLUB and WINDOW).
- The Modular units with pairs of CLUB doors are provided with only one handle. In elements with doors W 30 + W 60 the handle is placed on the W 60 door. Upon customer's request the CLUB handle can be mounted on both doors.
- Shelves, top, bottom and back panels in carcase colours.

## Handles available for Modular units Dpt 45 and Drawer units on wheels:

## Desks

○ = Cable pass-through hole Ø 8. The holes will be made by us if you provide your own drawing. The minimum distance from the side is 15 cm for the straight-edged desk. The position of the hole for the workstation is as illustrated.

## Linear desk

## Workstation with tubular support

# UP & UP bookshelf - Hanging and shelf

We recommend using our graphic software. It is necessary to plot and/or send a drawing of the whole composition.

## Metal hanging Dpt 30,1 W 2

All the types of uprights can be used in sequence; in the quantity required and depending on personal taste. **The maximum recommended distance between one upright and another (to prevent the shelves from flexing) is 90 cm (92 cm between the central hole), see diagram shown here.** The uprights are fitted with self-threaded screws to fasten the shelves, but not with plugs for fastening to the wall. The choice of type of wall plugs to use should be made by the assembler based on the characteristics of the walls.

### UPRIGHTS

Code	PL66.51P	PL66.52V	PL66.53B	PL66.54H	PL66.55Q

------	----------	----------	----------	----------

## Custom-made shelves

Dpt 26  
Th 2,5

The made-to-measure shelf allows you to obtain the best aesthetic solutions for your requirements and personal taste. **The length of the shelf must be calculated by adding 2 cm for every upright on which the shelf rests to the distance between the uprights (X); it is also possible to have an overhang of 20 cm per side.** The shelf can end with a different overhang on the left and right side.

Max 360 Min 34

Code	PL66.60N
------	----------

**Maximum load for UP & UP hanging bookshelf: 3 kg every 10 linear cm of the shelf.**  
 N.B. for loads evenly distributed.

For example a library suspended as a drawing will have a maximum capacity of **112.8 Kg.**

- 13 Folding door
- 14 System save space CLICK (example: double bed and shelf)
- 15 Floor standing boiserie
- 16 Floor standing bookcase with desk
- 17 Standard door
- 18 Sliding doors
- 19 Inside drawers
- 20 Bookcase with TV compartment
- 21 Vasistas door
- 22 Drawers

## When ordering:

- We recommend using our graphic software.
- It is necessary to plot and/or send a drawing of the whole composition.
- For a correct customization of the side panels, we recommend you to integrate the modular bookcase units with doors, drawers, shelves, back panels and dividing panels.
- Each composition must be completed with end side panel.
- For side panels with ceiling fixing you must indicate the height of the room (floor-ceiling).

\* The change in depth between the bookshelves D 33.3 and D 45.8 is possible with bookshelves H 195.3, 227.3, 259.3 and those with ceiling block, always aligned with a wall side. Housing spaces with side panel D 45.8 and shelves D 33.3 cannot be equipped with doors or drawers.

# INFINITY bookcases - The structure

## Components

The back of each component is properly finished.  
 Side panels have customized holes for shelves every 32 cm; upon request holes can be done every 16 cm.  
 The hardware is placed in a personalized fashion according to the position of the components.  
 The back panel, in between the side panels, can be assembled frontally (if it's for wall bookcase) or from the back (if it's for a centrally-positioned bookcase).  
 The doors are equipped with hinges decelerate (no on the doors for the Full corner).  
 The vasistas/folding doors are provided with concealed hinges.  
 The doors, with the exception of those CLUB and WINDOW (vasistas and folding doors included) are also available with push pull.  
 Drawers are provided with slowed down "QUADRO" metal runners which have adjustable height with interior CHARM finish.  
 An illumination system can be assembled on shelves of bookcases with back panel.  
 The transparent tempered glass shelves comply with the UNI EN 12150-1 standard.

## Safety notes

Each bookcase is provided with a metal plate for wall fixing, but not with the hardware for the wall positioning of the plate. The choice of hardware depends on the wall conditions and should be made by the assembler.  
 Fixing to wall or to ceiling is required to guarantee stability. Side panels with ceiling fixing do not require wall fixing because the mounting between floor and ceiling is performed with adjustable feet (top and bottom) which allow an adjustment of max 10 mm for each side (20 total). We recommend that you check the room height in more than one point in order to find any excessive differences. With false ceilings you should check that in the event of inflection, the height difference does not exceed the 2 cm maximum adjustable range of the feet.

## Recess for skirting board

A recess to allow for the skirting board can be requested (for a surcharge) on the floor-standing bookshelves Dpt 33.3 and 45.8 with and without back panel, in widths 30 - 45 - 60 - 90. This processing is possible on open bookshelves equipped with swing doors, pull-down doors, drawers (not internal), glass inner shelves without lighting and panel inner shelves, the latter only for bookshelves without a back panel. The skirting board recess in the side panel is without edging.

**When placing the order:** for the relative bookshelves, indicate YES for skirting board processing in the SKIRTING BOARD PROCESSING variant in Metron 4: all elements of the bookshelf affected by said processing (side, bottom, and back panel if present) will be adapted.

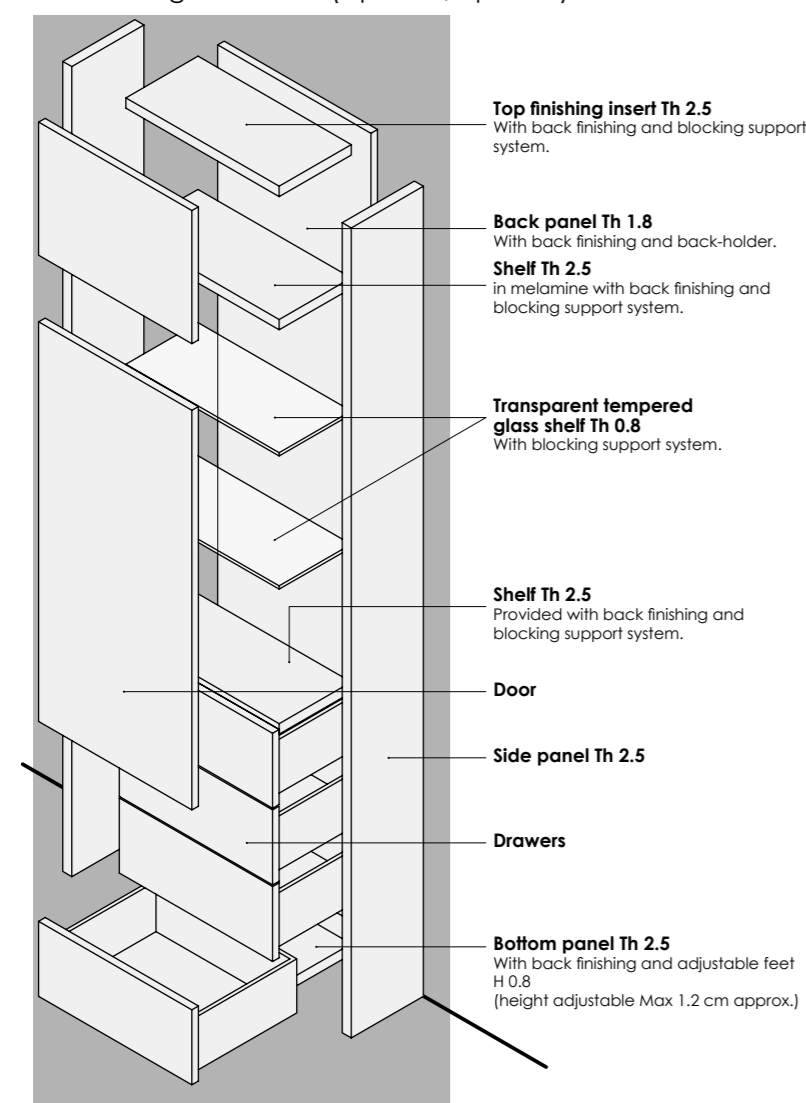

**N.B.** as a result of these changes, the price of the bookcase could be different from the standard one.

Example of skirting board recess in bookshelf with back panel:

Self standing bookcase	W 30	W 45	W 60	W 90
Surcharge for single side panel				
Dpt 32,5				
Dpt 45				

Self standing bookcase (Dpt 33.3/Dpt 45.8)

Full corner (Dpt 33.3/Dpt 45.8)

Curved bookcase end unit (Dpt 33.3/Dpt 45.8)

Semi-suspended bookcase (Dpt 33.3)

Suspended bookcase (Dpt 33.3)

\* The adjusting element allows any wall imperfections to be cleared.

# INFINITY bookcases - Technical information

## Bookcase with back panel

Fixing to wall or to ceiling is required to guarantee stability.  
 The bookcases with back panel proposed in the price list have a full-height back panel, except for the bookcases with side to be secured to the ceiling, whereby the last counter-opposing housing space is without a back panel.  
 The back panel for W 30, 45, 60, 90 modular units is supplied all in one.  
 The back panel for W 120, 150, 180 modular units is not supplied all in one (in 3 pieces).  
 The back panel for W 210, 240, 270 modular units, has a supporting function and it is provided in pieces; one for each unit in height. In this case the positioning of the shelves is fixed every 32 cm.  
 Every back panel has finishings.  
 They can be equipped with hinged doors, drawers, bottom-hinged doors, top-hinged doors and sliding doors up to maximum height of 259.3 cm. In bookshelves with side panel for securing to the ceiling, the last counter-opposing housing space cannot be equipped.  
 Two-sided open compartments.

## Pass-through bookcase

Fixing to wall or to ceiling is required to guarantee stability.  
 They can be equipped with hinged doors, drawers, bottom-hinged doors, top-hinged doors and sliding doors up to maximum height of 259.3 cm. In bookshelves with side panel for securing to the ceiling, the last counter-opposing housing space cannot be equipped.  
 Two-sided open compartments.  
 Compartments with only one accessible side.  
 Back panels have finishings.  
 They are composed of Dpt 33.3/45.8 shelves; where the compartment is closed with back panel, the shelves assembled are Dpt 30.8/43.3.

## Two-sided bookcase

Fixing to wall or to ceiling is required to guarantee stability.  
 They are entirely composed of Dpt 33.3/45.8 shelves.  
 They can be equipped with hinged doors, drawers, bottom-hinged doors, top-hinged doors and sliding doors up to maximum height of 259.3 cm. In bookshelves with side panel for securing to the ceiling, the last counter-opposing housing space cannot be equipped.  
 Two-sided open compartments.  
 Both side accessible compartments, except for those which have drawers which are accessible only from one side and have always finished back panel.  
 Not available on Corner units and End units.

# INFINITY bookcases - TV compartments

## Model 1

The back panel of the TV compartment model 1 is always provided with ABS cable hole Ø 8, positioned during assembly by the assembler, which allows cables of different electronic devices to be hidden.

The large space between the back panel and the front part of the TV compartment (26 cm) allows the positioning of the TV with foot stand together with other devices such as DVD players, decoders, game consoles, etc. on the side or in the niche underneath.

The bottom panel of the TV compartment is always provided with a hole in the middle usable for various cables.

You can choose to position your TV stand away from walls, and to do so you can order separately a covering back panel from the catalogue.

The Model 1 TV compartment is always provided with cable grommet and led lighting which is positioned in the top part of the compartment and is also completed with a touch switch.

## Model 2

The back panel of the TV compartment model 2 is always provided with ABS cable hole Ø 8, positioned during assembly by the assembler, which allows cables of different electronic devices to be hidden.

The space between the back panel and the front part of the TV compartment (16 cm) allows the positioning of suspended TVs.

All other devices such as DVD players, decoders, game consoles, etc. can be placed in the storage compartment underneath the TV.

The bottom panel of the TV compartment is always provided with a hole in the middle usable for various cables.

You can choose to position your TV stand away from walls, and to do so you can order separately a covering back panel from the catalogue.

The Model 2 TV compartment is always provided with cable grommet and led lighting which is positioned in the top part of the compartment, with a touch switch and metal support for TV.

## Model 3

The back panel of the TV compartment model 3 is always provided with ABS cable hole Ø 8, positioned during assembly by the assembler, which allows cables of different electronic devices to be hidden.

This particular type of structure is intended for suspended or self standing TVs and allows you to choose whether to place the electronic devices such as DVD players, decoders, game consoles, etc. on the side of the TV or in the niche underneath.

The thin panel beneath the TV compartment, allows the storage of DVD cases or books and it is easily removable for maintenance.

The bottom panel of the TV compartment is always provided with a hole in the middle usable for various cables.

You can choose to position your TV stand away from walls, and to do so you can order separately a covering back panel from the catalogue.

The Model 3 TV compartment is always provided with cable grommet and led lighting which is positioned in the bottom part of the compartment, with a touch switch and metal support for TV.

## Model 4

The back panel of the TV compartment model 4 is always provided with ABS cable hole Ø 8, positioned during assembly by the assembler, which allows cables of different electronic devices to be hidden.

This particular type of frame shaped structure is intended for suspended or self standing TVs and allows you to choose whether to place the electronic devices such as DVD players, decoders, game consoles, etc. at the side of the TV or in the niche underneath.

The frame-shaped part is easily removable to allow maintenance.

The bottom panel of the TV compartment is always provided with a hole in the middle usable for various cables.

You can choose to position your TV stand away from walls, and to do so you can order separately a covering back panel from the catalogue.

The model 4 TV compartment is always provided with cable grommet and 2 led spot lights placed in the top part of the compartment, with a touch switch and metal support for TV.

# INFINITY bookcases - Rotating 180° TV compartment

Structure consisting of: a front and rear panel, metal mechanism for 180° rotation, and outer frame made with a series of 17.4 cm deep fixed inner shelves present on both sides. It is supplied with a cable grommet to be positioned during installation by the assembler to conceal the various cables.

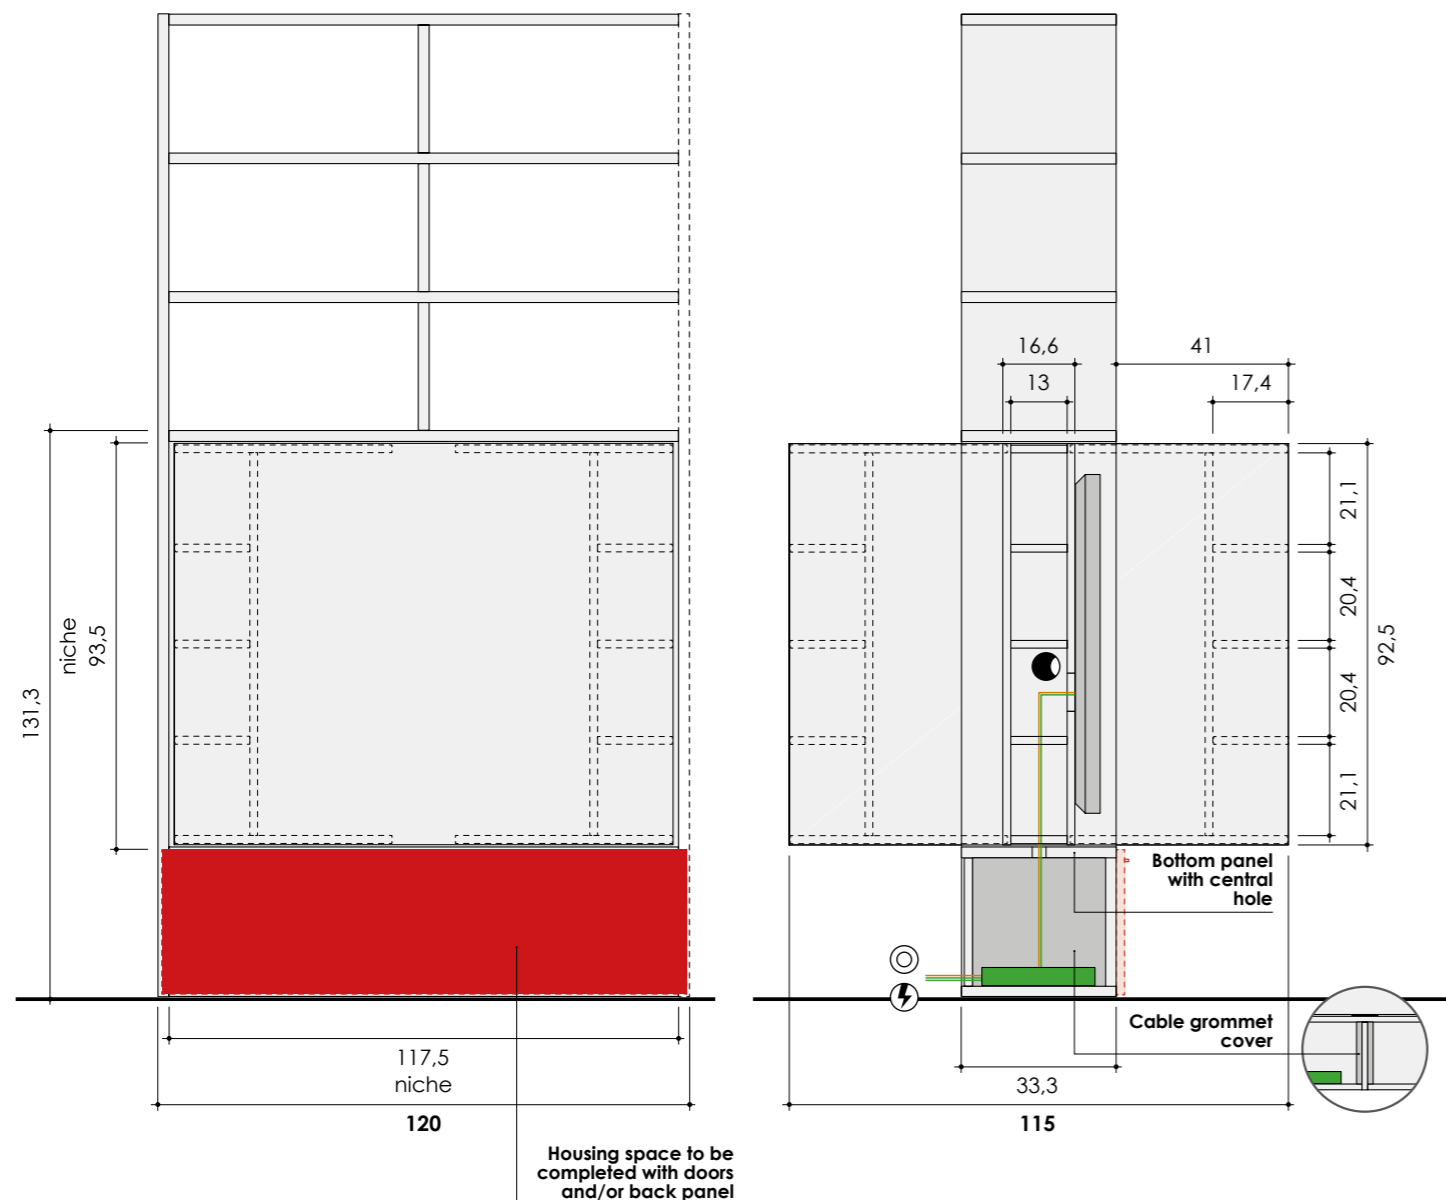

The swivel mechanism includes an internal cable grommet and cover to be positioned in the space below the TV housing space, and internal adjustment to keep the panel aligned.

Any equipment (such as DVD players, decoders, consoles, etc.) can be placed in the spaces underneath the TV housing space.

Accessible rear part for maintenance.

The bottom panel of the TV housing space has a central hole through which to pass the various cables.

Position in the centre of the room.

- ⊙ Aerial
- ⚡ Power source
- Cable grommet covering

# INFINITY bookcases - Minimum distances for assembling

## HEIGHT

### SELF STANDING Bookcase

Side view with self standing Bookcase from Ht 35.3 to Ht 163.3 (included) with top finishing insert

Side view with self standing Bookcase from Ht 195.3 to Ht 259.3 (included) with top finishing insert

Side view with Floor standing bookcase customised for ceiling fixing from H 230 to 302 Max.

We recommend that you check the room height in more than one point in order to find any excessive differences. With false ceilings you should check that in the event of inflection, the height difference does not exceed the 2 cm maximum adjustable range of the feet.

### SUSPENDED Bookcase (Dpt 33.3)

Side view with suspended Bookcase

## WIDTH

### SELF STANDING and SUSPENDED Bookcase (Dpt 33.3)

## INFINITY bookcases - Lighting

### Wooden shelf with led light

The wooden shelf light is a led strip (60 led/m) assembled on the back side of the shelf. The strip shares the same length with the shelf and by reflecting the light on the back panel, it enlightens the compartments above and below. The colour tone of the led strip is natural. We recommend using this type of light system when there is a back panel. We provide a power pack (with a surcharge) able to support from 1 to 6 shelves W 45/60 or from 1 to 4 shelves W 90.

### Transparent tempered glass shelf with led light

The transparent tempered glass shelf light system consists in a PVC profile with led strip (60 led/m) assembled on the back side of the shelf. The strip shares the same length with the shelf, it gives a front lighting and by reflecting the light on the back panel, it enlightens the compartments above and below. The colour tone of the led strip is natural. We recommend using this type of light system when there is a back panel. We provide a power pack (with a surcharge) able to support from 1 to 6 shelves W 45/60 or from 1 to 4 shelves W 90.

### Led spot light

The colour tone of the led strip is natural. We provide a power pack (with a surcharge) able to support from 1 to 6 spotlights. We recommend using this type of light system only on top finishing insert. Spot lights are assembled as showed below (wiring in sight).

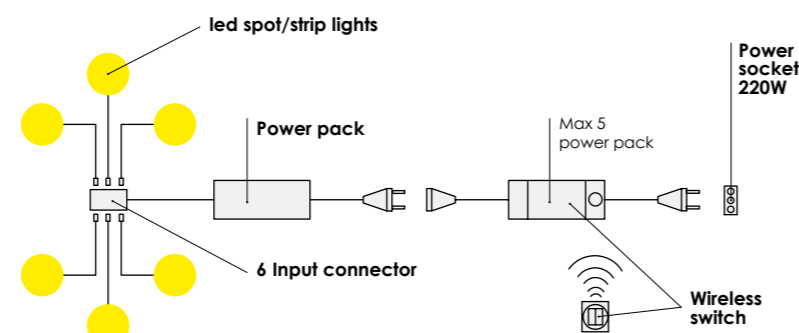

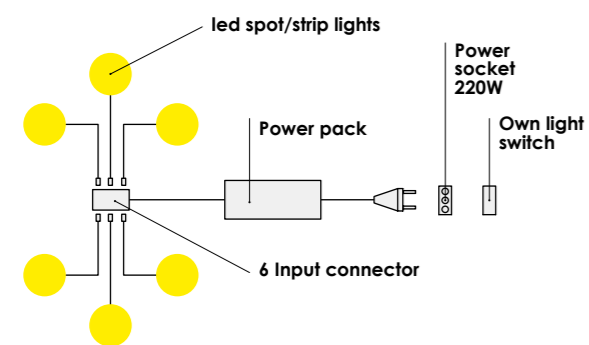

### On/off switch

The on/off switching of the led spot or led strip light can be done in 2 different ways:

1) By connecting the power supply unit to your home electrical system and using your own standard power switch.

2) By ordering our wireless on/off switch from catalogue. This switch allows you to turn on or off all the led lights in the bookcase, up to a maximum of 30 shelves or spot lights.

## INFINITY bookcases - Customized cuts

Customized cuts can be made only if you provide an explanatory drawing.

### WIDTH reduction

#### NOT POSSIBLE CUTS:

Metal and glass elements, drawers, WINDOW doors, folding doors, sliding doors, sliding door rails, DIVIDING PANELS, shaped end unit, full corner, TV compartments, beds save space CLICK and MAGIC modular units.

#### Example:

To reduce the width of the represented bookcase 4 components must be cut (top finishing insert, shelf, bottom panel and back panel), therefore the additional charge will be:  
35,00 x 4 = 140,00.

### HEIGHT reduction

#### NOT POSSIBLE CUTS:

Metal and glass elements, drawers, WINDOW doors, folding doors, sliding doors, sliding doors rail, DIVIDING PANELS, self standing bookcases maxi, TV compartments, beds save space CLICK and MAGIC modular units.

#### Notes:

Cuts are always made from top.  
No oblique cut.  
No structure height different from front height.

#### Example:

To reduce the width of the represented bookcase 2 components must be cut (side panel and back panel), therefore the additional charge will be:  
35,00 x 2 = 70,00.

### DEPTH reduction

NOT POSSIBLE

The vasistas/folding doors are provided with concealed hinges.  
The vasistas/folding doors can be supplied with push pull system.  
Drawers are provided with slowed down "Quadro" metal runners which have adjustable height with interior CHARM finish.  
The internal drawers can be positioned in correspondence with open compartments and sliding doors with back panel.

CLUB  
drawers and large drawers  
CHARM with "Quadro" type  
soft rails as standard  
(without surcharges)

# Sliding doors INFINITY

- Track must be always mounted on an horizontal line of shelves, top finishing insert or bottom panel, at any height.
- The track always covers half of the first vertical panel and half of the second (track length = bookcase length - 2.5 cm).
- The compartments behind sliding doors may be equipped with inside drawers.
- It is possible to overlap even sliding doors with different sizes.
- You can mount front panels on the compartments at the left or right of the sliding tracks.
- Customized cuts are not available.

## SINGLE DOOR EXAMPLE

Order 2 complete sliding tracks.

## MULTIPLE DOORS EXAMPLE

The number of tracks you order is equal to the number of doors + 1.

## MIXED DOORS EXAMPLE

It is possible to juxtapose sliding doors with other types of front panels. Other front panels can not be assembled on the compartment above and the one below the track (✘).

## Dividing panel positioning instructions

The grid in each horizontal section is divided every 15 cm.  
Dividing panels must be mounted following the instruction below:  
**SIDE compartments L Max 73.8 - Min 28.8 cm.**  
**MIDDLE compartments L Max 75 - Min 30 cm.**  
The position of load-bearing dividing panels establishes the holes on the above and below shelves.

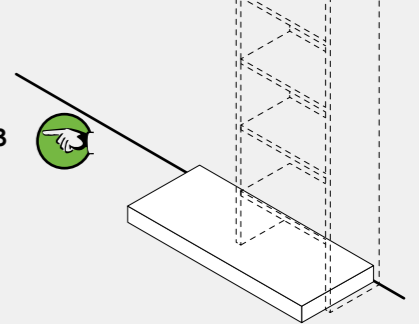

We provide a power pack (with a surcharge) able to support from 1 to 6 shelves W 45/60 or from 1 to 4 shelves W 90

Technical information

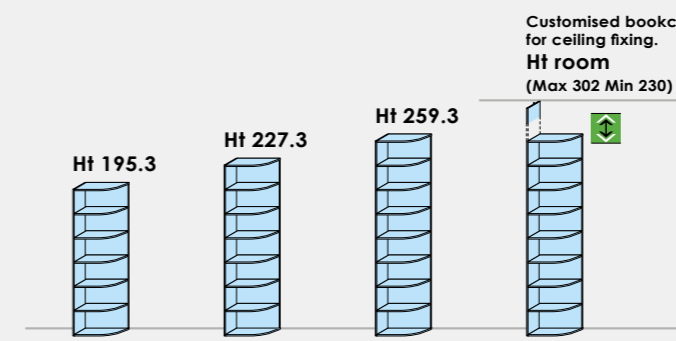

- Available in open version or with pair of doors.
- Handle is always provided on the Right door.
- Size proportion changes are not available.

Components in GROUP 2 colors

The side panel is equipped with adjustable feet (top and bottom) for fixing between floor and ceiling which allow a maximum adjustment of 20 mm. **When ordering it is necessary to indicate the room height (floor-ceiling); the bookcase will be adjusted to size according to the distance detected.** We recommend that you check the room height in more than one point in order to find any excessive differences. With false ceilings you should check that in the event of inflection, the height difference does not exceed the 2 cm maximum adjustable range of the feet.

- Components in **GROUP 2 colors**
- Components in **GROUP 3 colors**
- A For bookcases with back
- B For see-through bookcases

▶ The side panel is equipped with adjustable feet (top and bottom) for fixing between floor and ceiling which allow a maximum adjustment of 20 mm. **When ordering it is necessary to indicate the room height (floor-ceiling); the bookcase will be adjusted to size according to the distance detected.** We recommend that you check the room height in more than one point in order to find any excessive differences. With false ceilings you should check that in the event of inflection, the height difference does not exceed the 2 cm maximum adjustable range of the feet.

------	----------	----------	----------	----------

## Dividing panel positioning instructions

The grid in each horizontal section is divided every 15 cm. Dividing panels must be mounted following the instruction below:  
**SIDE compartments L Max 73.8 - Min 28.8 cm.**  
**MIDDLE compartments L Max 75 - Min 30 cm.**  
The position of **load-bearing** dividing panels establishes the holes on the above and below shelves.

## Melamine-faced dividing panels Ht 29.5 - Th 2.5

Load-Bearing

Can be equipped with standard doors and drawers.

## Dividing panel positioning instructions

The grid in each horizontal section is divided every 15 cm.  
Dividing panels must be mounted following the instruction below:  
**SIDE compartments L Max 73.8 - Min 28.8 cm.**  
**MIDDLE compartments L Max 75 - Min 30 cm.**  
The position of **load-bearing** dividing panels establishes the holes on the above and below shelves.

 We provide a power pack (with a surcharge) able to support from 1 to 6 shelves W 45/60 or from 1 to 4 shelves W 90

Dividing panel positioning instructions

The grid in each horizontal section is divided every 15 cm. Dividing panels must be mounted following the instruction below:  
**SIDE compartments L Max 73.8 - Min 28.8 cm.**  
**MIDDLE compartments L Max 75 - Min 30 cm.**  
 The position of **load-bearing** dividing panels establishes the holes on the above and below shelves.

# DOCKS modular units for bookcases INFINITY Dpt 33.3

## Open DOCKS

- They are containers which can be stored in the open compartment of the Bookcase. The shelves in between DOCKS must be successfully blocked.
- They are without back panel and are provided with a non modifiable inside partition.
- They are 42.4 cm deep and they protrude for 9 cm from the front of the bookcase or 4.5 cm from both sides.
- Customer must take care of assembling.

## Suspended DOCK unit with door

- They are wall units provided with an invisible and unhooking wall fixing system and they can not be placed inside the Bookcases.
- They are always supplied with back panel and are provided with a non modifiable inside partition.
- They are 44.3 cm deep and they protrude for 11 cm from the front of the bookcase.
- Customer must take care of assembling.
- The doors are fitted with decelerated hinges.
- The doors are also available with push pull (not on CLUB and WINDOW).

## Components

- Carcase Th 1.8 cm.
- Melamine-faced shelves Th 1.8 cm.

# MAGIC modular units suspended for bookcases INFINITY

## Dpt 33.3

- They are elements with non modifiable inside partition which can be used as single units or as part of a composition (see example).
- They are provided with concealed anti-unhooking wall fixing system.
- Customer must take care of assembling.
- The doors are fitted with decelerated hinges.
- The doors are also available with push pull (not on CLUB and WINDOW).
- **They can not be rotated.**

Example of composition with **MAGIC-A**

## CAPRI

### 400 BONNELL HOURGLASS SPRINGS

**FABRIC:** 1 Elasticised with non-allergenic treatment. Fixed. **PADDING:** 2 Winter side: PolyFill Termal fibre (selected wool + non-allergenic polyester fibre). Summer side: PolyFill Fresh fibre (selected cotton + non-allergenic polyester fibre). **STRUCTURE:** 3 Bonnell double cone springs "400" (density approx. 400 springs, in the double bed version) + very thick polyurethane with shaped profile. **SUPPORT:** Rigid. **THICKNESS:** Ht 17 cm (without handles) and Ht 21 cm (with handles).

## LIPARI

### ECOFOAM (water foamed, breathable open cell)

**COVER:** Removable and washable in water at 30° C. **FABRIC:** Elasticised, non-allergenic treatment and central zipper on three sides. **PADDING:** 100% Polyfill fibre non-allergenic breathable. **STRUCTURE:** 1 EcoFoam layer (expanded open cell polyurethane, water foam) with multizone profile. 2 Very thick EcoFoam layer (open cell polyurethane, water foam) wavy profile. **SUPPORT:** 1 Rigid 2 Medium. **THICKNESS:** Ht cm 17 approx. (plate height cm 15.5 approx.).

## ELBA

### ECOFOAM + VISCO-ELASTIC MEMORY FOAM

**COVER:** Silver Air: non-allergenic fabric with silver-based treatment, removable and washable in water at 30° C. **FABRIC:** Elasticised, Silver Fresh treatment. **OUTER STRIP:** Air System in reticular, high transpiration, removable fabric with handles and double outer zippers with separation system. **PADDING:** 100% Polyfill fibre non-allergenic breathable, dust-proof (on two sides). **STRUCTURE:** 1 Layer of Thermo Visco Memory Foam (heat-sensitive viscoelastic) Ht cm 3 multi-zone (winter side) multi-zone wave profile. 2 Very thick EcoFoam layer (open cell polyurethane, water foam) medium/high density. 3 Layer of EcoFoam Ultrasoft Ht cm 2.5 (summer side) multi-zone wave profile. **SUPPORT:** Medium/high comfort. **THICKNESS:** Ht cm 21 approx. (plate height cm 18 approx.).

## ALICUDI

### 1600 MICRO-POCKET SPRINGS

**FABRIC:** 1 Elasticised with non-allergenic treatment. Fixed. **PADDING:** 2 Winter side: Layer of 100% pure Poly-Fill Termal fibre (selected wool + non-allergenic polyester fibre) + polyurethane layer. Summer side: Layer of 100% pure PolyFill Fresh fibre (selected cotton + non-allergenic polyester fibre) + polyurethane layer. **STRUCTURE:** 3 Nested micro-springs (density approx. 1600 springs, in the double bed version) with independent movement with a thick layer of polyurethane with wave profile on two sides. **SUPPORT:** Medium-high. **THICKNESS:** Ht cm 23 approx.

## SALINA

### POCKET MEMORY

**FABRIC:** Elasticised with Aloe Vera non-allergenic treatment. Fixed. **PADDING:** Winter/summer side: double layer in 100% pure PolyFill hypoallergenic with high transpiration fibre. **STRUCTURE:** 1 Thermo-Visco Memory layer 3 cm (on one side) with multi-zone wave profile and EcoFoam layer Ht 2.5 cm approx with multi-zone profile (on one side). 2 Independently moving nested springs in different zones (800/1000 springs approximately for the double version). **SUPPORT:** Medium-high, different on the 2 sides. **THICKNESS:** Ht 23 cm approx.

## PALMAROLA

### HIGH COMFORT MEMORY

**FABRIC:** Elastic with non-allergenic Aloe Vera treatment. The cover is removable and washable in water 30° C. **PADDING:** Winter/Summer side: double layer in 100% pure PolyFill hypoallergenic with high transpiration fibre. **STRUCTURE:** 1 Thermo-Visco Memory layer (thermo-sensitive - visco-elastic) Ht 5 cm multi-zone (winter side). 2 EcoFoam middle layer (open-cell polyurethane, water-foamed) with high carrying capacity and wave profile. 3 High elasticity EcoFoam layer Ht 2 cm. (summer side). **SUPPORT:** Medium-high, different on the 2 sides. **THICKNESS:** Ht 22 cm approx. (plate height 19 cm approx.).

## PONZA

## PROCIDA

## MALVA

**FABRIC:** Fixed, 100% pure cotton. **STRUCTURE:** Core in non-allergenic fibre, dust proof. **ASHING INSTRUCTIONS:** Fully washable in water at 30° C. **DIMENSIONS:** 50x80 cm approx.

**FABRIC:** Elasticised, breathable, non-allergenic. Fixed. **STRUCTURE:** Core in bevelled EcoFoam Ultrasoft with massaging insert in Thermo-Visco Memory Touch in the nape support area. **DIMENSIONS:** 68x38x10/11 cm approx.

**FABRIC:** Elasticised, breathable, non-allergenic. Fixed. **STRUCTURE:** Core in micro-perforated latex with bevelled form. **DIMENSIONS:** 72x42x10 cm approx.
