

AEG

Premier Partner

2023-2024 APPLIANCE RANGE MAP

INNOVATION FOR GOOD

At AEG, we’re relentless in our pursuit of responsible design. Living more sustainably today, whilst setting new standards for tomorrow.

70% 

70% **recycled plastic** is used in the inner liners of our new built-in refrigerators.

98% 

98% of electricity used in global operations is from **renewable** sources.

82% 

82% reduction in **our scope 1 and 2 CO₂ emissions** since 2015 – 3 years ahead of our 2025 goal of -80%.

ZERO  WASTE PLANTS

55% of **Electrolux** plants were zero waste certified by the end of 2022 according to our Zero Waste to Landfill programme.

By focusing on our major impacts, we will prevent millions of metric tons of greenhouse gases from entering the atmosphere. This is our roadmap to become climate neutral throughout the value chain by 2050.

INNOVATIONS THAT PUSH BOUNDARIES

We lead by challenging convention and creating innovations that go beyond what is expected from our appliances. We know your customers already master their skills, we are here to help them take them even higher. With innovations that push the boundaries of what is achievable. Smart solutions engineered to learn and predict user needs and adapt to how they live. We always match sustainability with beauty and unparalleled performance, so there's no need to compromise. It's time to forget outdated rules and trust our appliances.

DISHWASHERS

It's not just about the food – the style of cutlery and plates affect our perceptions of what we eat. A dark chocolate dish looks its best when served on an angular plate, while a round plate is better for cheesecake. So your customers will have a range of tableware that complements their food presentation, and need appliances that will care for it in the most efficient way.

HOBBS

At AEG we believe that a hob should look as good as it performs. Which is why all our induction hobs are designed not just to bring out the best in the dishes being cooked, but also to provide unrivalled flexibility whilst looking fantastic in every kitchen.

HOODS

Cooking environments need to be fresh, bright and peaceful, enriching the time spent there. We use advanced technology to ensure that the design and build of our cooker hoods give the optimum combination of high-end design and powerful functionality.

OVENS

However your customers like to cook and whatever their favourite dishes, there's an AEG oven for everyone. Featuring our intelligent technology, every oven in our range makes it effortless and enjoyable to create great tasting food.

REFRIGERATION

Flavour is all about freshness and storing ingredients – the right humidity and temperature is vital. But fridge arrangements are a very personal choice. Our solution allows for complete individuality. Everything and anything fits in perfectly for long-lasting flavour.

AEG

PEACE OF MIND BUILT IN

All our appliances featured within this brochure are available through our AEG Premier Partner retailers and are covered by our extended five year parts and labour warranty. Premier Partner will register them on customers' behalf so they don't have to worry about a thing. During the warranty period customers are protected against the cost of parts, call-out and labour charges.

All work is carried out by our national network of approved AEG engineers.

AEG

RARE, MEDIUM, WELL DONE AT YOUR COMMAND

Order from the SteamPro oven with Command Wheel as if ordering at a restaurant. Select rare, medium or well done to enjoy perfect results at home, without ever dealing with degrees. Why compromise on an oven that doesn't meet these standards?

CHALLENGE THE EXPECTED

DISCOVER MORE AT [AEG.CO.UK](https://www.aeg.co.uk)

THE MATT BLACK COLLECTION

The Matt Black Collection from AEG brings together years of material engineering for an exclusive and premium execution. The quality of the materials are brought to life with architectural edges and tactile surfaces, with polished displays and interaction areas bringing new aesthetics and improved functionality to an increasingly sophisticated kitchen space.

INSPIRATION BEHIND THE DESIGN

“The matt glass fascia is created by an etching process, a technology from the architectural world. The matt texture has natural anti-fingerprint properties, which is tested to be much more resistant to stains and easier to clean, bringing an advanced level of performance.”

Terence Tan

Terence Tan, Senior Master Designer

THE MATT BLACK TOUCH CONTROL

Bringing together years of material innovation, our Matt Black finish combined with traditional glass offers a seamless look designed for performance.

Naturally stain-resistant and safe from fingerprints, the Matt Black surface maintains its quality over time. Truly sophisticated, this new collection offers kitchens an elevated sense of elegance.

ALWAYS IN CONTROL

Our oven and compact range come with beautiful and intuitive user interfaces to suit every cooking need.

Command Wheel Controls
The Command Wheel is an intuitive way to operate all the cooking settings. Its swift response gives the operator complete control of every step of the cooking process.

Touch Controls
This intuitive touch display control panel gives access to a wide variety of oven functions to suit every dish.

Retractable Rotary Controls
High quality finish stainless steel retractable knobs.

THE PERFECT DESIGN ALIGNMENT

Our oven and compact range offer the perfect design alignment options, both horizontally and vertically. For matching design alignment including user interface, pair appliances with the same controls using the below chart.

AEG

EXTRACTOR HOBS GIVING YOU ULTIMATE KITCHEN DESIGN FREEDOM

With a range of intelligent sensors built into AEG induction hobs, saving energy in the kitchen is seamless. Good to know that the food – and the electricity – isn't being overcooked.

EXTRACTOR HOBS. FAST, PERFECT INSTALLATION.

At AEG we aim to offer a Best-in-Class installation experience.

We are improving and renewing our domestic appliance installation process to ensure that installing our products is always as simple as possible.

3D models for both the extractor hobs and installation parts are available in 3D to use within kitchen design systems.

FEWER INSTALLATION STEPS:

- Unpack and let's go
- Just 30 installation steps compared with 85 for previous AEG ComboHob
- Professional and faster than usual in the market

65 % less
installation steps
than previous
model

SIMPLE

- Text-free installation instructions
- Only one person
- Less tools required
- Adapts rapidly to fitting situation

FLEXIBLE

- Suits all kitchen designs
- All AEG products are simple to install
- Fits in standard niches

INSTALLATION OPTIONS:

RECIRCULATION VERSION

Recirculating air filters and cleans vapours using the two-in-one filter. The active charcoal filter in the two-in-one filter absorbs odours. Once cleaned, air returned to room.

New recirculating air models starting with **CCE84...**

DUCT OUT VERSION

Exhaust air filters vapours using grease filter. Filtered air is vented outside into open air.

New duct out models starting with **CDE84...**

INSTALLATION DIAGRAMS

AEG has always been committed to supporting its retail partners and professional installers by providing them with best in class installation solutions. AEG kitchens are simple to install and use only one Torx T20 screwdriver to install all of our appliances, allowing installers to save time. In 2018, AEG launched a first of its kind Installer App, giving professional installers access to installation information at their fingertips.
